

JFK assassination records appeals Harold Weisberg 9/16/79
Records not searched
Improper withholdings ~~of~~ in historical case

It is possible that based on the attached from a different file I have used it
62-109090
in a prior appeal. It is Not Recorded Serial of 1/27/64, Branigan to Sullivan.

It refers to files from which I recall no compliance.

It also withholds the name of someone at the CIA who was orchestrating the responses of the agencies to the Warren Commission, a matter relating to which both the CIA and the FBI have already disclosed a number of records and details. In addition, the subject has received considerable public attention from both Houses of Congress. In my view the FBI has already waived on this by its disclosure of such names, including that of Angleton. (The others are within the public domain in any event in the Commission, Court and Congressional records.)

There is no need for this withholding, especially not in an historical case, and the matter of coordination, which in some cases amounted to collusion, in itself is of considerable historical importance.
