JFK assassination records appeals  
Referrals - National Archives

Harold Weisberg 12/11/79

The attached referral slip for 62-109060-7676 does not identify the record.

It is a 3/23/77 HQ airtel to the Dallas office.

The record, therefore, is not an Archives record.

Archives communications have been disclosed. FBI records reporting information from the Archives have been disclosed. News reporting conferences ~~index~~ with the Archives also have been disclosed.

When all such records have been disclosed I do not see a need for this referral.

If there was a need I do not perceive, I have every reason to believe that it did not require two years and more to pass without Archives action on the referral.

Long ago the FBI wrote me that it was taking care of referrals. It hasn't.
