Lab records
— Referrals

Harold Weisberg 6/16/80

On the processing worksheets 62-109060-7720 is identified as of 4/13/77, 8 pages of Lab Report. Initially it was represented that all was provided, then this was changed to "Refer to IRS."

This appears to be inconsistent with the worksheet for the same serial as a "bulky: "Enclosure to Bureau Lab airtel to DL, ~~xxx~~ NO" of the same date, given as 32 pages, all released, with claim to b7C.

The records pertain to a letter sent to me and to others from Mexico, enclosing a letter purported to be from Lee Harvey Oswald to a Mr. ^Hunt.

In this case the FBI disclosed under one heading what it referred under another. It thus appears that the referral was not necessary and contributes to confusion.
