

JFK appeals - reprocessing

Dear Sam, King and JFK appeals - reprocessing

8/13/79

Please pay close attention to my 8/13 to Shea, 8/10-13 to Flanders and what I say of what HSCA published in Volume 8.

I believe that this can be enough to get a reprocessing unless the FBI decides it wants that litigated also. Betsy has to be crazy to go along with that after what else the record holds. But Bitchy can be crazy if Lynne is crazy.

Note also the relevance to all the JFK cases in which there are the identical withholdings. I've not checked the JFK volumes but I'm sure they'll not withhold what is not withheld re the Rays.

This is what had not been withheld prior to the 1974 amendments and was not withheld in the Commission's records.

It will not be easy to insist that they can agree for the HSCA to disclose and insist that simultaneously they have the right to withhold from me or to a Court.

This also may be a matter for discussing with Metcalfe.

A number of others are included in the copies of appeals I gave you Friday.

Best,
