

JFR - Special File Room

King and JFK assassination records appeals Harold Weisberg 1/14/80  
"Special File Room" of searches not made and records withheld  
"June" and "June Mail" records and transfers of records

During the recent depositions in C.A. 75-1996 there was a not atypical failure  
and records  
of FBI recall, relating to the June/ June Mail/and transfers to June files of records  
that had originally been in the "main" file. Consistent with this was a lack of  
recollection of the Records Branch's "Special File Room." This is not at all sur-  
prising, given the fact that the FBI has a special form for such transfers.

It is not possible for me to now review the 20,000 or so pages of FBIHQ  
MURKIN records that I read years ago. However, I am going over JFK records, in  
particular the "Oswald" or 105-82555 file. I find that the same form is <sup>used</sup> ~~used~~ in  
this file. Some times there are no obliterations on the form, sometime the word  
"Mail" is excise, leaving "June," and as with attached sheets fro Serials 2401  
and 2403, neither word remains. (After "Subject.")

I select these two as illustrative because in the set of <sup>records</sup> ~~records~~ provided to me  
there are no copies of Serials 2400 or 2402 and no sheets reflecting any transfer  
of them.

I am certain that in the past I provided you with an adequate number of  
copies of this "permanent charge out" sheet as parts of appeals on which you have  
not acted.

"June" is a reference to surveillances. In C.A. 75-1996 I am to have received  
all copies of all MURKIN records and there are surveillance items of the requests  
that have not been complied with and can't be without searches of all records relating  
to all forms of surveillance. There was no search of any "June" records and no ~~search~~  
search of the Records Branch's "Special File Room."
