JFK assassination records appeals

Harold Weisberg 9/22/79

Withholding of information disclosed in Warren Commission records

Nosenko appeal

Worksheets

Previously I have appealed the withholding of information that had been disclosed in Warren Commission records, denials of information relating to Yuri Nosenko and the withholdings from and classifications on the worksheets.

You rubber-stamped on the worksheets, not examining the underlying records and you claimed that the FBI has not withheld what was disclosed in Commission records and is readily available at the National Archives.

You have not acted on my Nosenko appeals, which include the obliteration of his name under "national security" claim.

His name and other information are available at the Archives.

It also is disclosed by the FBI in the JFK releases from which, arbitrarily and capriciously and with not unusual inconsistency, it was also withheld.

One case in which the FBI disclosed the name is in 105-82555-2757. So that you may see this for yourself I attach the first page only.
