

JFK assassination records appeals

Harold Weisberg 9/28/79

Withholding by file shifting: "Changed To" and "June" removals

Attached are "Changed To" and "June Mail" slips for several records that were removed for seven more ~~EXCLUDED~~ records, all long after the records were generated.

Of these five appear to be initial serials in other files after the shifting.

One has the new file number that with another record relates to the Texas Court on Inquiry into the JFK assassination. Another includes a record that relates to a Secret Service draft of a plan for increasing Presidential protection as a result of the Warren Commission's work. These are clearly relevant, after shifting, as all were initially from filing in the Commission file.

The shifting to June Mail was of 105-82555-31(?)94. This also is clearly relevant and requires an applicable exemption for withholding.

The other records were removed from ~~62~~ 62-109090.
