

To Quin Shea from Harold Weisberg, JFK assassination records appeals 6/19/79
"previously processed;" worksheets

Attached is the worksheet for Sections 13-15 of 105-82555, the FBIHQ Oswald file. Please note that it posts pages 102-524 as "previously processed." How this is possible with an initial release escapes me and I appeal it.

With regard to the first claims to exemption I again appeal the use of b2 on the same ground, that the requirements of the language of the statute are not met. None of this information is exclusively an internal FBI matter. The investigation reported also was not exclusively an FBI matter. Initially it was a Presidential investigation. A week after the assassination the Presidential Commission was appointed. The FBI was not enforcing any law. (In fact at the very beginning its involvement was not sanctioned by any law, not until the President acted.)
