Abstracts - batch received 3/29/80 - total withholdings and unjustified withholdings established by checking

252. This and the underlying record both state that a copy of a probation **EXAMPLESSI** psychiatrist's report on Ray are analosed with the Serial. In what was provided to no it isn't. The shrink evaluated "increasingly severe, observive, compulsive treasd...." Of course I want it.

2650. Described by worksheet as San Francisco TT, 2 pages, which can be feleased whether or not there is anything reasonably segregable in the content. OFR says this is "tele re Botty Brandon call from King." This indicates that in two pages at least some is reasonably segregable. The FEI was seeking privacy for its own protection, because of its wrongful acts, not in the interest of the dead King or Na. Brandon.

2123%. Whether or not there is anything reasonably segregable, the description Hiami disclosed on the worksheet is not within any exception. This is a 3pp. Materi TT. In three pages some ought be segregable.

272336. Some as 27233, above.

2799. This, like a disproportionate percentage, is a St. "ouis record. They coincide in time with PEI desparation that extended to the urging of admittedly illegal and Go#Constitutional surveillances on the Ray family. In the abstract the excision is in "RE USE OF (OBHINERATED) ST LOUIS RECOMPENDS AGAINST USE IN ST. LOUIS AREA..." I ask that you satisfy yourself that the (7)(C) and (D) claim is made for a living person or persons and not to hide some of the deeds recommended by Memphis.

2824. The "emphis recommendation in 2799 included Kanana City. The abstract for 2804 is withheld under claim of (7)(D) with no reasonably segregable material, which I am sure is not true from the worksheet. That this is a Kanana City TF certainly is reasonably segregable, as is the date, whether or not more is.

2998. Again St. bouls. There are 2 pages in the underlying record, totally withheld, as is the abstract, under (7)(C). The explanation is "Information of a personal nature regarding a third party." This third party is identified by OFX:"Max Anythony Ryan: 1) JER's brother that wear adopted out 2) interview held in absyance because of possible

irreparable injury and doubtful results." If my recollection is correct, in anticipating "irreparable injury" in 1960 the FEL's magic exceeded that it has displayed with ballets but the "doubtful results" represents good judgement. Max died while all of the FEL's investigation was getting it nowhere. He drove a car off a bridge. He was a youngster, compared to the others. About 20 years ald. So further "irreparable injury" would represent an advanced stage of FEL magic. (A younger mister also was adopted out of raised in an instatution, but the FEL did not withheld pertaining to her - and her name ism't even "ay. to hebgoblining of small minde minds with consistency.)

I regard this as further proof of the accuracy of my forecast, that the FHI would abstracts process the index not in second with proper standards or your testimony or your reports but, to the degree possible, with the intent of perpetuating improper withholdings by hiding proof of their impropriety.

3119. The underlying redord is of six pages, referred to the CIA, according to the worksheet. The abstract dates this at 3/17/77, more than enough time for action gontent under a 10-day act. That there is reasonably segregable/net requiring CIA assent is indicated by the OFR: "A Pan American black negetiated for a job in Alabama in 1964 with one (obliterated) and thinks (obliterated may be implicated." (7)(C)

Sigs. (b)(3), (6) and (7)(0) are claimed, with this explanation: "Info exampted by statute; records the disclosure of which would be a clearly unmarranted invasion of personal privacy; info of a personal nature re a third party." The claims duplicate those made for the underlying record, a 3-page internal record. According to OFR: "Neme to De Loach on Lomax (noted by H)- rundown on Lemax background and TV show, etc. Very derogatory - check see Lomax file bu Bureau."

Louis Lonax diamat died a decade or more ago. The Fill made him a public person in this case, if he didn't do it himself, as I believe he did with his writing and socalled investigating. The FEI didn't like his writing, knew he had a criminal record, and in what it has disclosed, tried to establish that he and Hay were in jail together. (They weren't.) His criminal record it did disclose. He is no less of a third party than I am, more of one than many others pertaining to whom the FBI disclosed very derogatory and extremely personal information not all of which was socurate and almost all of which was relevant to nothing in the investigations. The Momphis records disalosed to as abound in this kind of information.

3226. (Actually, incoming only.) That it is of two pages and other identifiers could be disclosed.

<u>JUM</u>, (b)(5) is claimed for "information of a deliberative nature." However, the Department has disclosed its nature: **JUMPERIMENTIX** "Proposed dismissal of robbery charge." One possibility is the state charge on which Ray had been sentenced, the sentence he was serving the day he escaped, which was also the day the conviction was severged or the dah before or after it. The FBI disclosed that it conference with the judge, Judge Casey, but withheld some of those records. This conference was quite some time after the escape, after Dr. King was killed. There are other possibilities, none of which from my reading of decisions, qualifyee for the exemption

3392. (b)(5) is claimed, "information of a deliberative nature." But the OPR's disclosed notes indicate my guess with regard to 3374 may be accurate. It states, "Judge Caset." Also, the information on the worksheet is not (b)(5) information.

3400. (b)(5) again, "information of a deliberative nature." (St. Louis TT, 3pp, which also is not (b)(5) information.)

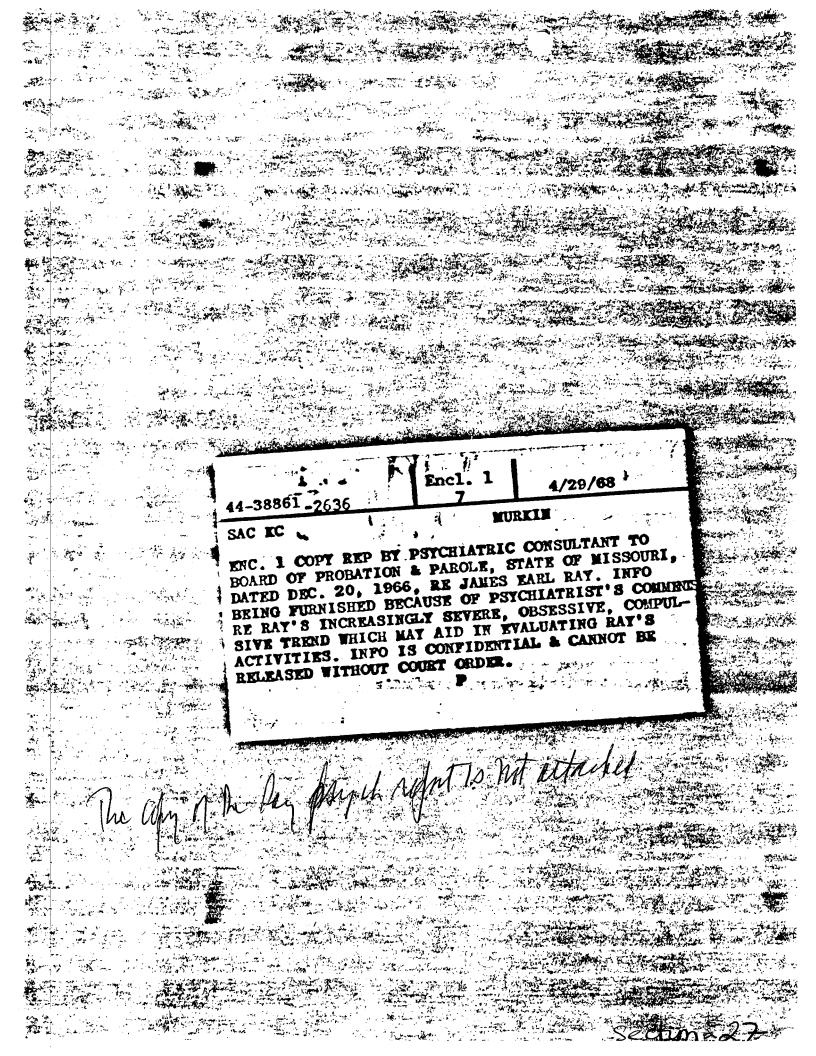

At the time I received the underlying records I raised these questions's with the PBI, which never responded.

3436. (7)(6) and (D) are claimed for "information of a personal nature regarding a third party; information from a confidential source." The OFR notes establish that the claim is spurious. Gauron's death some years ago makes it pointloss. The OFR says, "John Bugene Gauron - baught Ray how to burglarize; cased several jobs together." That Gauron was informing for the FHI was so well known it tried to make a case that Jerry Ray beat him up over it. So much is known about that character defaming him appears to be quite unlikely. (He was known as "the cat man" because of the astronomical number of cets who samed his uncleaned home.) 2515. This underlying record was forwarded to the CIA for response still not made on 8/17/77. The OFR's makes report information identical with FEI information that the FEI did not withheld in its own records, "Italian Intelligence Service: - advised of JER w/description - requested to maintain watch." This has to be withheld or referred?

<u>Ji42</u>. (7)(D) is claimed for "information furnished by a confidential source." It is so little confidential that I discussed it with the FMI from other records not withheld. This is established by the OFR's note, "Jerry Raynes: check phase calls." So little confidential that the phase company is crequired to provide the subscriber with written notification after the lapse of a certain period of time. Jerry Rayne is the head of that family, the others calling themselves Ray. Moreover, that the phone company provided this service is already disclosed by the FMI.

3562. Referred to the CIA 8/17/77, without any action since.

3618. (7)(D) is claimed for "information obtained from a confidential source." It is a one-page St. ¹ouis TT at least some of which is reasonably segregable. Assuming the claom itself is justified.
