## King assagination records appeals Abstracts

## Harold Weisberg 3/31/80

As provided to me it is represented that the FAI could not find any abstract for Serial 1110, which is attached. The reason is that it was misfield, as the FEI appears not to have detected in processing the abstracts. I have informed the FBI of another instance of this.

If the Fill and Department counsel did not get hung up on their misrepresentations and then try to will them into reality they would not have as many missing abstracts because they could find them in the try duplicate filing they pretends does not exist.

The duplicate filing is chronological rather than numerical.

About any representation that the second set was searched I appeal the feilure to search it for copies of any abstracts missing from the numerical filing.

44-38861-1096 5AC, ME FBI Leb Report. Examination requested on document - Microscopic by LA, LV, PH.

 DJ counsel Bill Cole kept referring to the abstracts as #cards," which they are not, as this xerox shows. Why he did this I don't know but he persisted in the incorrect description after I established that a duplicate capy was made for duplicate but chronological filing. Perhaps to avoid having to produce the chronological set, as a record in itself, separate from the numerical listing?
