

*King assassination records agenda*  
Claude and Leon Powell  
abstracts  
CIA records

Donald Heintz 5/2/20

The abstract for 6111 does not withhold the Powell names, which are withheld in the underlying record. They also are withheld in earlier abstracts.

The serial reports an FBI-CIA conference about what to do about the Powell allegations. I do not recall receiving any such records from CIA.

When the FBI withhold names it also has disclosed and you do not act on np calls the result will be confusion in the historical records.

The high ordering of this irrelevancy by the NSCA makes it more significant.

re bloodletting can doubtless, however, have been a factor in the success of the soft diet regime used  
at St. George's Hospital in the treatment of cases of cellulitis and abscesses, particularly those of the rectal  
and perirectal regions. The results obtained by Dr. J. H. D. G. Lister, of the Royal Free Hospital, and  
Dr. J. C. L. Smith, of the Royal London Hospital, in the treatment of cellulitis by the use of a soft diet, are  
also given in the paper of Dr. J. H. D. G. Lister, and cases of severe cellulitis in Dr. J. C. L. Smith,  
of the Royal Free Hospital, and of Dr. J. C. L. Smith, of the Royal London Hospital, are described.
