The abstracts in this batch cover the period of the search for May as Smeyd overseas. These abstracts and their underlying records show that all claims for need to withhold to swild disclosing foreign acceptation as well as foreign apprentions are simply untrue because of the extensiveness of the disclosures of precisely the same information.

Includes

Shat is disclosed (and withhold slowdere) industry the countries, the identifications of the exceptation units, the mass names of various officials of varying ranks, the information sought and provided and even copies of the information. It also is disclosed in these abstracts and their underlying records that when foreign police organizations mented confidentiality they asked for it — and when it suited FMI proposes not to head the rangulars they were not heeded. Examination of the information discloses that the FMI's purposes were mostly to sake itself look good, to make May look public guilty and other political purposes.

As I stated prior to the beginning of the processing of the abstracts, then abstracts entiretes clearly indicated that the FMI intended to make the best marks consistent with the underlying records so that, to the degree possible, the FMI would seek to indee the improper and wrangful processing of the underlying records. The abstracts, as processed, passe this. Within this batch that is slithfuld also is disclosed if that is true of the underlying records. This is particularly true of foreign pulses make, including those in the public densin from having been subpressed as witnesses in the procedution.

What is withheld was known to those processing these records to have been public and to have been disclosed because of my prior - and ignered - appeals. I filed these originally as I examined the underlying records. This was as soon as I received them. In this I am alleging that the improper mithheldings in the processing of these abstracts is knowing and deliberate, is intended as more stonewalling and obviously is intended to perpetuate the initial improprieties and to perpetuate issues of contention and disputs in the litigation.

Ald. Discloses ecoperation of "Segional Security office at Pretoria," forwards copy of mome from it.

<u>AIT</u>. Provides information from New Scotland <sup>1</sup>ard and outlines investigations it is saking.

1225. Discloses name of PM supervisor sent to Dagland, withheld in earlier underlying records, indicates he is operational in England ("HE CAN TAIK CRYPTICALIX TO ME KEEPING HE INCOMEDIAN ADVISED HIS WHESHABOURS AND I CAN RELAY TO MINEAU VIA CARLE OR TELEPHONE"), and underlying record indicates the legat's office also was operational in England. It reports its "INVESTIGATION HERE," meaning London.

4247. Discloses that the FMI was operational in "enada, that it received extensive cooperation and information from the RCMP, and that this included records at least some of which were made public in the U.S. prior to this litigation and in it. (This included contents of underlying redord. The abstract does not include RCMP.)

JEEL. The parameta indicated in the foregoing and other records, a sick sorry ownr assembly githin the FMI pertaining to the allegedly have assessin May, characterised this abstract and the short underlying record to the extent that it is not comparation possible to identify whether Pritish police/or FMI operations in London is disclosed, but one or both are. The entire text of the sensage is: "Name concerned in MARCIA case definite on sanifest for Flight 074 of British Supercess Alreage which departed London 18155 (m.m. or p.m. not indicated) 5/7/68, for "Isbon." The more in Sangi, bit stated.

ACO. Discloses FM operational in England; "legat Ph floor completed investigation & will prepare mean." (Although his name in public and he was publicly accredited to the British government Philosophe name was also withheld in the underlying record.) is withheld in this underlying record, along with that of the also accredited and public and published name of them Paris logat. Portugene police cooperation is also disclosed in this underlying record.)

AND. Discloses Japanese police occoperation: "MATICHAL POLICE AGENCY OF JAPAN, TOK(yo) ADVISED ON 6-10-1968, RECORDS OF KIROKU MANUFACTURING CO., LED.,... HEFIECT BEAFON IN

THEORICAN SMIPPED 5-3-1968, PASSED JAPANESE CUSTOMS 8-19-1968."

Add. The entire text of the abstract is obliticated although the worksheet states it he an NUMP report of 4 pages, 3 released, and (7)(0) and (D) plains were made. Only (2)(D) is claimed for the abstract withholding. Of course the disclosures in the underlying record vaporises that contrived claim. So far from secret is the HEP's cooperation with the PHI it disclosed a printed HUMP form with which it forwarded information to the PHI. Here, on this printed form, the "eget's name was originally excised but was printed back in, "Mr. HOSS IEE, INVES." The printed address on the form is "c/e UNITED STATES HUMASSI," with the address. There are blanks for "MOUR PILE," "HUMP FILE," "FURTIES" and "STATES." The printed HUMP unit of origin is "CHINDLAL INVESTIGATION HEARCH R.C.M.
POLICE MELOGRAPHES." The correction of the initial mithholding reflects the fact that the disclosure is not an accident.

Letter of themse to him for his sid in the Ray investigation. (I believe this is the san who correlated the Ray and Sneyd pictures in emmination of the Consider passport records.) A second such abstract and underlying record pertains to the BERP supervisor, to whom a letter of thanks also was sent. A third abstract of the same number refers to the two proceeding ones. A SIS note attached to this underlying record discloses that the thanks are for the "review of 270,000 passports" and identifies those to whom thanks were sent as "the Consissioner of the REMP," who cortainly is a public figure, and "Constable J.R. Murray," who actually made the identification isnite case." The REMP, naturally county, disclosed hurray's work contemporaneously. Also 4453 is a logat TT of 6/6/68 in which the fact that the PRI is operational in Canada is disclosed by the disclosure of the investigation it conducted. Details of REMP comperation are also disclosed. The names of the REMP Consistioner and of the five other RCMP constables who worked with Hurray are withheld in the TT, as is Murrary's. The cooperation of the Canadam Department of External Affigure is disclosed at the end of the TT.

4577. Suggests that the PHI was operational in Britain and provides details of Scotland Yard's cooperation in seeking Bay.

4517 Discloses RIMP cooperation and the kinds of investigations asked of it by
the PMI. Here, under (7)(D) claim, the FMI withholds what it has itself disclosed,
an appeal not noted on, that the woman from whom its Memoric office received information
about Jerry May is Marjarie Petters, its RUL. (The OFR's note out; this is factually
incorrect. It says that the daid she got the money Jerry Sent her from the Moyal
Benk of Canada. Actually, it was wrapped in the bank's news letter only.)

4523. Provides "DOCUMENTS QUALINES...PROK THE CANADIAN EMBASSI" in Portugal and reports Portugues police will conduct further investigations. (Re Ray's activities in Portugal.) The underlying records provide the contents of these documents and details of the results of the investigations already anchoract. Portugues police masse disclosed electrons by the PHI are obliterated here. They were in the public domain without the PHI's can disclosures of them.

4530. Forests results of further investigations (referred to in 4529 above). The underlying records topics the FET's can investigations (operational disclosure) but withhold public dessin names, including of subpressed situasses.

4556. Formula results, report of Japanese police investigation. (Neds public.)

AND Lieutifies "Portugues Internation falice" as source of some documents.

AND Discloses confidential information from Scotland 'and that in turn discloses its surveillances on Ray and his court appointed comment. That is withheld is disclosed California by the PEI elements, the name and removed of the/lasyer who got in touch with Bay's comment. The OFR note confirms this, that he is Frederick J. Schwarts.

4561. By suggests three skillings directions for the investigation Scotland "and is conducting for the FM.

4565. Discloses further details of Portugues police investigations.

4571. Discloses results further FMI and/or RUAP investigations, including Canadian government modical records searches.

4714. Although the exchand abstract does not reveal it, the actual underlying

record in a facetable copy of the ROAP's report, with the attached form referred to under 4449 above.

Manuel Da MENNE Cunha and Senjor Fernando Edwardo Da Silva Pais, as repeated in the abstract, the meaning and significance of the underlying record are not indicated. It relates to the FEI being "furnished the results of investigation conducted by authorities in Idabon." Prior to thanking Pais "for excellent assistance and cooperation of Senor those Passo" FEIER checked its own records and saked for a check of that of the legat.

(From this I take it that neither is one of the Hitlerites who were on "cover's Imas card list.) The manes of these Partugese police officials, public domain and the subject of my carlier and ignored appeals, were withheld from other records. This discloses their and their impairmation's cooperation with the FMI.

A591. Discloses Scotland Tard records and information, contrary to FM's representations that it never does either: transmits "LIST OF FROFERTY FOUND ON (Ray's) PERSON, AS WELL AS CONTENTS OF HIS BAGAGE." The underlying record states that "This property has been reviewed and all items on which bureau investigation could be based have been identified and furnished the Bureau..." Oddly enough, although facalaties of some of the contents of Ray's wallet have been disclosed, neither the wallet nor the contents are listed. (Another Ismorod appeal.)

4509. Refers to Fal report "EFLECTING INVESTIGATION BY NEW SCOTLAND TARD," suitable for dissemination.

4612. Discloses that the FM received copies of the Scotland Tard reports referred to in 4609, above. The underlying record states that the "enclosed pertinent Scotland Tard reports... could be ideseminated to the Department, in confidence," that additional Scotland Tard info is to be received, so HQ asked for submission also "in form suitable for dissemination." This establishes that in addition of the Scotland Tard info that was disclosed in faceballe other Scotland Tard Information that was confidential is distinguished from it and it is to be disseminated in altered form. Both mean the info was made available, not withheld.

4616. In referring to Bay's arrest this refers to what was obtained from Scotland Tard. States that Crime Records distributed "national press release !! :35 a.m." This confirms my carlier and typically, ignored) appeals pertaining to the function of "Crime Records" and the records it has and are still withhold. I as I have often informed you, PMI disclosures and withholdings are keyed not to the Act but to its self-promotions and other political objectives. Here in the underlying record the opening claim, internally, highest ochalons, is that Ray's capture was "as a result of information furnished by the PHI." The identification of May as Sound was not by the PHI but by the RCMP. It is the RCMP info that led to Ray's capture. (Interesting to me because it confirms my writing is the Fal's statement that the unlaskful flight and Civil Rights - Conspiracy charges "ame not extradictable offences," under the treaty. So the DJ claimed the opposite of the charges filed in the U.S. to get "ay extradicted.). 2, underlying record. An insolent and insulting Deleach memo on his meeting with the AC and others on this is attached in the underlying Serial. It discloses the opposite of the Department's representations in court in C.A. 75-1996, to the effect that the Criminal Division had no involvement in this case. The AG ordered its AAG to go to London to take charge, over the FEI's objections.) The attached copy of the press release states that the FEI is operational in the named countries: "... Ray's arrestens the direct result of intensive investigation by the FMI pursued in all fifty states - - as well as in Canada, Maxico, Portugal, Rogland and other countries."

4642. Discloses FAI operational in Canada and/or had cooperation of RCHP. It gotfessenger manifest of flight on which hay left "anada and may ask "RCKP to locate fand interview page passengers on this flight."

4649. Se 4591, 4609, 4612 above, if infe not to be disseminated, make for specific reasons.

4659. Discloses Fall investigation in Canada and info from HOMP and Toronto police. In both the abstract and the underlying record a midnished published name of a melfidentified man is withheld. This also is the ambject of an ignored appeal. The man,

edds, on page 6

4625. Like many others, reflects records that should have been provided by other Underlying record components. Also reflects investigation in Portugal./Identifies investigation results as from Portugase International and Security Police, through Paris Legat. 4634 similar.

<u>A647</u>. Reports information from Scotland <sup>Y</sup>ard and skin underlying record includes factiviles of Scotland <sup>Y</sup>abi evidence, identified as this in abstract and record.

A 6/24/68 Legal, wondon to Director Airtsl discloses what is withheld elsewhere and is one of the records to which I referred.

On page 1 it discloses what "we have been advised in collidence" about Arthur Hanse, Ray's lawyer. This includes the message he left for Ray when he was demicopermission to see him. Also the nesses of sources withheld elsewhere, like Chief Insocctor Thompson, and Isn Colvin and Major Wicks, experts on mercenaries, together with seese of the information provided, like the name of the Brussels mercenary organisation and one connected with it.

Page 2 discloses Scotland and information and details of its investigation and results, pertaining to Rey's travels and luggage (an exhaustive search), tegether with its contents.

The first paragraph of page 3 confirms that the one whose name is withheld in the note, "Mr. Bay will nest you ate TWA ticket desk" is Yarus Chandra Dutt, as I reported had been disclosed. (I do not recall receiving the results of the investigation asked of the low York office.) Other Scotland Yard evidence was made available to the FRI and it is described.

known as "the fat man" because of his size, identified himself to the Toronto press. His name is (approx) McDouldton.

MAGI. Two abstracts, both heavily excised, both to withhold what is improperly withheld in the underlying records because the information is not only disclosed - it can have only the obvious source. The information is what was picked up by violating Ray's rights. (What the AS directed, 4616 above, be scrapulously protected, so naturally the PEI was insulting and insolent.) Ray's efforts to obtain commel and the telegraphed response were intercepted. The underlying TT begins, "YOLIGHING RECEIVED IN ARSOLUTE COMPIDENCE AND ANY LEAK WOULD EMBARRANS MILITISH COVERNMENT." What also was alleged to be confidential in the fact that "my was given medical examinations. (Other surveillados also are disclosed. These are within my requests but the information is not provided.)

4674. Underlying record discloses Scotland Tard cooperation and FAI operational.

454. "AIRTEL SUMMARIZING INVESTIGATIVE EFFORMS HI HEN SCOTLAND YARD" certainly discloses its cooperation. The underlying sirtel gives details, including of Scotland Yard procedures, and provides a mystery no investigation of which has been disclosed, indicative of Ray's not being alone (as I know he was not). Ray had on himself a receipt for an item of clothing not found in his possession, from a man's shop where he could not be identified. Scotland Yard was also to collect for the FRI all partiment information from the various officers' "pocket books" but I do not recall any form of any such information, even one diagnizing the sources.

4605, Discloses BCAP cooperation, information and investigations. See 4692.

4627. Discloses Paris legat's report of Portugues police investigations and its pursuing leads provided by the PSI.

ASS2. In place of the abstract there is a "DELWIED PAGE INFORMATION SHEET." Here I suggest that the FEI have these reprinted for accuracy, calling them disinformation sheets. Here again the withholding is an effort to hide the impropriety of the withholding of the underlying record. But the OFR pulled the plug on the FEI. The worksheet states that none of the 14 pages are released, the claims being (7)(0) and (D), as with the abstract. The (dis)information sheet claims that nothing is segregable. While the OFR's

nites are not complete what they state establishes that the withheld information includes what is public demain, what is not properly subject to these claims and what the Fil itself disclosed, as in 4665, above. Of the five items from these 14 pages in the OiR notes at the very lenst four are entirely public and have been for years. These partein to "my's purchases of clothing in Canada and an indestification of him by one of his neveral known (pictures and manes and addresses published) landladies. The fifth is at least in part public, hay's soing to dence studies. I do not recall whether ID of him is public, but is it suitable for withhelding? In toto? The information may originate with the RCKP, but it also was made public in Canada before any legal proceeding in the buy case. The (dis)inferention sheet's explanation of the claims to execution for all 14 pages, of wisch not anything is segregable according to the FMI, is I "Information of a presonal mature regarding a third parti; information formished MY A CONFIDENTIAL SOURCE." (For the inapplicable second claim to be applicable the info also must not be available from any other source. In this case it was all available to the FMI from newspapege, magazines and books, includings Bill buie's, Gereld Frank's and sine.)

A694. There again is total withhelding, again with the (dis)information sheet making the name claims, again an effort to hide the impropriety of the withhelding of the 10 pages underlying space (nothing allegedly segregable), and again the OFR's notes establish the freedulent nature of the claims and withhelding. Fart pertains to the dance studio charges satter above, part af to the report that extradition sharpes take precedence over the Raglish charges (disclosed by the FM itself in other records), and part to the extradition harring date and counsel involved, also disclosed by the FM and the public press.

...ALSO ENC. COFIES REPORT BANE DIV. 6/6/68...\* This certainly discloses RCEP cooperation.

Another abstract, same Serial, "Various documents enclosed, received from New Scotland

Yard on unofficial and confidential basis." This also distinguishes the actually confidential from other Scotland Vard research records. OFR provides a half page of details,

no excisions.

4608. 4699. The (min)information sheets replains the withheld abstracts, again saking (7)(c) and (D) slates, again claiming methins is segregable, again withheld sheft is segregable and is public densin, from the CPR's notes. With the first, "Zero Dance Studio (Canada) Seda Sare places Sneyd (i.e., Ray) in studio 25 key 60° and "Canada - Paul Bridgesen." (The latter is an alian Ray assumed in Canada, of a real person who, ascerding to what the FSI itself disclosed, Ray had located on a map he left behind.)

With both the workshort identifies them as RGSP reports, so that is disclosed.

All. "...inferention form by Reyal Canadian Sourted Police, New Scotland Yard and contest by subject at South African Rebeauty in Liebon, according to the underlying record. The records are forwarded to CED, with no claim of confidentiality made. An apparent reason for the phoney claim to withheld the info from the dence studio in that by then Rey had left Canada and was in England. A second abstract and some of the same Serial also report Scotland Tard and RESP information, including the Areviously withheld Dada Zare identification. Other content also was previously withheld under the ph comp

ATUL. Discloses cooperation of "VEST GERRAR PEDERAL CHUITAL POLICE."

ALLS. Manhores that Scotland Land gave Fil May jermonal property for tenting, the results of which are included in the underlying record, (From underlying record, Train ally bears benderities assenge addressed to (obliterated) as follows: Nor. May to meet you at T.V.A. ticket duck. "May the laner.)

III. "New Scotland land advised" to Fulbon bank job May pulled. Here it states
"Info darm on confidential basis and should not be dissendented outside Dopt." No
doubt this is why the FMI disclosed it to me, in facedable. It since has been jublished
by the House assensine consistes, which really news it confidential.

WHILE TO WAS IN LISBOIL." This and underlying record indicatos FAI operational there.

G.I.D. note gives serve of Pein, director of FIED, and of Faunt, who was given the

"end Iron Cross in 1945. FIRE gave FAI documents. So confidentiality claim made in

forwarding them. Some mays LIM dispositeated. Info has been idealoged.

4725. Letter to Pais thanking him and Passo #for sesistance rendered." Note asked to FMI file copys of letter says both are on Director's Christens card sailing list but makes no sentien of From Gross award(s).

ATTL. Legat, "onder, informed that May's lawyer, Arthur Manes, went to Scotland."

Yard, which "ADVESED IN COMPIDENCE" what the Fall here discloses, that Manes was not permitted to see May. The underlying redord, which makes up a phoney educate for Hanes not getting to see May, refers to the Portugese police whose names, disclosed earlier, are here withheld. Other Scotland Tard info also disclosed. While the TWA message referred to above has the name withheld, as it also is here, the OFM's note provides it, Tarus Chandra Dutt. This name was disclosed to me in other records by the FALLANGERMAN.

Ny 1976 appeal not acted on yet.

4729. Submits Scotland Yard's property taken from Ray. Underlying record discloses other Scotland Fard info and that the FSI was operational there.

4714. Two abstract marks, two record. One, to Paris Legat, anys "Advise if invest completed by Fortugese authorities." The other reports what the Portugese police advised. There are withholdings in the underlying seconds but these are not indicated and no claims are made for them on the worksheet.

MAI. "INVESTIGATION COMPLETED BY PORTURES."

4742. "Soundes New Scotland Taxo advise" re Fulham benk rebbery. Other Scotland Taxi info disclosed in underlying record. Info not to be distributed outside Bureau also in disclosed.

4746. "Like Furnished METFING OUT ADDITIONAL INFO FURNISHED BY FIDE & RESULTS OF ADDITIONAL INVESTIGATION COMMUNICATION IN MADRID, SPAIR. "One of the documents obtained by these other police is attached to the underlying record, which also withholds nesses that have been disclosed as well as one published in the diplomatic list.

4749. "... REQUEST NEW SUCTIAND YARD FURNISH MUTO OF HANDPRINGING ON PARENT RAC" used in Fulher bank robbery. This has been disclosed, published by HSUA, too.

4752. Info from South African Embassy (Lisbon), PIDE being pressed to follow outstanding leads.
