The enclosed documents originated with our St. Louis Field Office, and while they were not filed in that Office's file on the investigation of the assassination of Nartin Luther King, Jr. (Murkin), they are pertinent to that investigation, and are provided herewith in response to your request for materials on that investigation.

with the informant, the five-page document dated Warch 19, 1974, primarily concerns another investigation totally unrelated to the Murkin investigation. The two paragraphs furnished to you are the only ones relating to Murkin; the excisions from those two paragraphs were only of information which would tend to identify the informant, and to protect his privacy.

A review of the deletions which were made in the index to the 29 volumes of evidence (approximately 2,800 pages) previously referred to as "three boxes of indices" was conducted. This review has concluded that neither the name of Byers nor Spica had been excised from those records.

These documents have been reviewed by the Department of Justice, Office of Privacy and Information Appeals Unit, which has affirmed our handling of this release.
