Dear Dave:

Under separate cover I am mailing you a recent memorandum which the Government filed in the Gary Shaw-Mark Allen suits against the FBI which Fensterwald has filed. Attachment 2 is an FBI summary of the various requests and the FBI's progress on them to date. The top of each sheet identifies the civil action number, so this will let you know what is at issue in each of the cases.

Also enclosed is a decision by Judge Harold Greene--wish we had him in every case--ordering release of the photographs regarding the Quebec-Guantanamo Walk for Peace. The photographs will probably be of no value, but the decision may have some use as legal precedent. Don't yet know whether the FBI will appeal.

Best regards to all, and congratulations to Elizabeth on her big achievement.

Sincerely,

Jim
