

I remained in the office from 3:00 pm, November 22, 1963 until 2:00 am on November 23, 1963. At 2:00 am I was dismissed from duty to go home by Captain Fritz. While in the office from 3:00 pm until 2:00 am I answered the phone and took an affidavit from Patrolman M. L. Baker. Patrolman Baker stated in his affidavit that he was riding escort on his motorcycle for the President's motorcade; that he heard the shots that killed the President and wounded Governor Connally; that he decided the shots were coming from the Texas Book Depository Building. After determining the origin of the shots, he jumped from his motor and ran into the building. He found a man that said he was the building manager. Officer Baker and the building manager then went to a stairway and started up the stairs to search the building. On about the 4th floor Officer Baker apprehended a man that was walking away from the stairway on that floor. Officer Baker started to search the man, but the building manager stated that the man was an employee of the company and was known to him. Officer Baker released the man and continued his search of the building. Officer Baker later identified Lee Harvey Oswald as the man he had seen on the 4th floor of the Texas Book Depository.

At 2:00 am I left city hall and went to my home. I returned to duty at 8:00 am Saturday, November 23, 1963. I remained in the office until approximately 12:30 pm. At this time my partner, I. D. Montgomery, and I were told by Lt. Wells to go to 610 S. Akard Street and pick up a cab driver by the name of Bill Whaley. He said this man had hauled Lee Harvey Oswald in his cab on Friday. We went to 610 S. Akard and picked up Whaley and returned with him to City Hall. We got back to City Hall at approximately 1:30 pm. I remained in the office from then until 9:30 pm. At this time Lt. Wells relieved me and I could go home. I arrived at my home at about 10:15 pm. At 10:30 pm I received a call from Lt. Bohart. Lt. Bohart stated that Sunday was my day off, and I could go ahead and take off,
