Dear Sir,

Would you please be so kind as to tell me who was in charge of the technical, electronic Research group that wanted to use this method of "brain-washing" on Ruby, to prove his innocence, prior to his death?

A doctor in Annapolis, Md. was "paid off" to permit psychology, electronic-reactor studies on me, and he won't tell.

If I get the address + name of the research group, my doctor can contact them + better know what was done to me that is causing the "undue influence", + use counteractive treatment.
