Dear Sir,

I am a gun collector and have a very nice collection displayed in my place of buisness. I will appreciate very much if you will let me know the make and cal. of the gun that was used to kill President John F. Kennedy.

I have heard several diffrent kinds, one a Italian 6.5 mannlicher.

I am enclosing a self addressed stamped envelope. Will certainly appreciate this information. I would like to know exactly the make, model and cal.

Thank You,

O.T. Coley
