

AN BORD DES LUFTHANSA-LUXUSDienstES ÜBER DEN NORD-ATLANTIK

---

Dear Sirs:

Since I first saw pictures of Jack Ruby I have been trying to recall where I may have met him. I've been in Dallas, Chicago, Cuba, Las Vegas and other places he has been but I know it wasn't any of these. Then this week the newsreels of him being taken into court caused me to half remember where I had seen the face. Maybe it was only a look like double. But I feel I must pass it along anyway. The fellow I saw was in Mexico on about three times that I was. First time I was staying at a Montelroy motel with a San something name. The other times were in Nueva Laredo and ~~WXT~~ have been only a case of recalling the earlier meeting of the look-like. However, a check with photo could be made at a girl's bar resort known as Casino PapaGayo's. The man I saw was there in '63 about the time a gunsmith in Laredo was having law trouble over guns which were being smuggled over the border. From the talk in Spanish of a girl at Papa's with whom he was drinking I gathered that she also had a sister working in the place. She or employees in the place might be able to make an identification. I offer this last minute and a certain tip for only what it is. A circumstantial hunch which could or could not supply a link leading to solution of this confusing situation.

A buenas

Julian Ochoa
