

Keystone Kops

They were giving Oswald the "humane" 3d degree. Relays of detectives questioned him (in violation of the Supreme Court's subversive Mallory Decision) hours on end, hoping to catch him in a ridiculous misstatement and eventually get the truth out of him.

But the utter stupidity of the Keystone Kop Korps of Dallas, the chief's flare for publicity in sending for TV and news-real cameras to witness and record Oswald's routine transfer from city to county jurisdiction, gave the master minds of the Establishment the incredible opportunity to close his mouth forever.

The most incredible thing was to see 60 Dallas policemen and detectives stand idly by while Rubenstein drew a revolver and shot the manacled helpless Oswald dead.

One picture showed a big dumb flatfoot (named as Detective Lavelle) standing idly by as he watched Rubenstein murder the people's most valuable witness.

This flatfoot could have reached out and broken Rubenstein's wrist with a blow of his big hand while knocking the revolver from his grasp.

The picture shows that Oswald could have prevented it had he not been manacled on both hands. He was what is known as a sitting duck.

Sixty policemen let this unauthorized person "infiltrate" their ranks and break up what might have resulted in a solution of the murder of JFK.

The writers of the famous Keystone comedies never thought of anything as ridiculous as this. It would have been tops in hilarity were it not for the thing it prevented.

Now, if the cops were sincere in wanting to find the "motive" behind Oswald's act they will beat it out of Rubenstein, or wear him down under the glaring lights and in violation of the Mallory Decision.

Even if the Supreme Court decides to interfere with a conviction, the police could still have the truth and give it to the world---if pressure weren't brought on them not to.

They could give Rubenstein the well-known truth serum (Scopolamine). He could refuse to take a lie detector test but they could force the Scopolamine into his veins and then he would "sing" his head off.

Or, they could give it to him without his knowing it.

The sleeping pills (Sominex and Sleepeze) contain it. They could give him a drug to keep him awake; then the sleeping pills with massive doses of Scopolamine inserted.

Rubenstein apparently was selected by the conspirators of the Establishment because, as a night club owner and semi-public character, he had made it a practice to court the friendship of the local gendarmes by declaring his night clubs open house for any and all of them.

It was a sitting-duck task for him to take over the job of bumping off Oswald while 60 cops looked on.

On July 16, 1960, CAPSULE NEWS made the definite unqualified statement that "whoever is elected this year will die in office".

This is one of the many pieces of news in which this newspaper was days or months, and in this case 3 years, ahead of all other news media. It told of the missile build-up in Cuba nine months before President Kennedy said he had "just heard of it".

How did we know Pres. Kennedy would die in office?

Just as one can successfully predict that the earth will revolve in an orbit every 365 1/4 days, one can predict that an event of world shaking interest and importance that has occurred every 20 years for 140 years will continue to occur. But why?

Us mortals cannot question the wisdom of an Act of God, even tho His instrument be a demented man spurred on by an even more demented coterie of power and money-mad beasts incarnate. We cannot figure it out like one can a geometric or astronomical problem.

In an attempt to find some sort of an answer we went to the Rev. Benn Lewis, Washington's leading minister of the Metaphysical Faith. His theory is:

"Under our so-called Democracy, the condition of our country every 20 years has to step forward into a new cycle. The nation must be shocked into a change. There must be a shock reaction because the nation wont move on its own otherwise. Man never learns from pleasure or good times. He only learns from suffering or bad times."

Dr. Lewis pointed out that a definite move to smear the pro-Americans and those who fight the Communists and their internationalist bedfellows was in both the background and foreground.

So, the Rockefeller Center press agents were right on the ball. Inflammatory "statements" against the John Birch Society and all "Birchites" were issued and spewed forth in the Kept Press.

They were "credited" to Rep. Hale Boggs of Louisiana, Democratic Whip by seniority and not by ability, and three other Left Wing mouthpieces. Mr. Boggs has a voting record, at last count, of four votes for his people and 57 for the House of Rockefeller.

However, this effort blew up when the killer got himself caught and was found to be a domestic Communist.

He wasn't supposed to get caught; and the Establishment (a name we use for the House of Rockefeller and its UnAmerican allies of every stripe, a name as good as any) would bump him off before the Dallas Police and the FBI could wangle or "rubber hose" from him the intelligence of for whom he was committing the unspeakable crime of the century.

Dr. Lewis (with intuitive sensitivity) told us that at 11 o'clock Sunday morning. Two hours later it happened exactly as he said it would.

PREDESTINATION

TV cameras and news pictures, and events leading up to this "destruction of the evidence" before it occurred, make Dallas' Keystone kops look like an integral part of the conspiracy.

And, Dr. Lewis points out, the plan was to kill both Kennedy and Goldwater with one shot and pave the way for the nomination and election of Nelson Rockefeller, or the discredited Nixon or some other Rockefeller Stogie who would stay put.

With JFK's father, who took him into the Rockefeller camp to save embarrassing disclosures about his political and financial life, having but a short time to go, it looked like "political wisdom" to get both Kennedy and the pro-American Goldwater out of the picture.

The smearing of the "far right" by the Kept Press was to be the medium of disposing of Goldwater.

But the stupidity of Oswald in getting himself caught, and bragging about being a Communist, upset the appercart. So the Kennedy killer had to go---and fast.

Even the Dallas police are convinced that this was the reason Mr. Rubenstein, who had made himself affable to the Dallas Police Force and could get close to things as an unofficial amicus curae, was selected as the medium.

He was doubtless told that to kill the alleged killer of President Kennedy would make him a national hero, double the business of his night clubs, and that any jury would turn him loose to go and kill some more.

One of the deplorable things about the killing of Oswald, at this juncture, is that there is no way to get the story out of him as to why he killed Mr. Kennedy.

The story as told to the Press, and as it undoubtedly has unfolded to them, doesn't add up in many ways.

In fact, it hasn't even been proven that he was the one who did it, regardless of the preponderance of circumstantial evidence. Circumstantial evidence is wrong more often than it is right.
