

We have a small farm of our own but leased a 700 acre farm so we could raise more cattle.

I usually work in Detroit, Mich. during the winter months, but didn't go this winter - though I wish I had for we have had one of the coldest winters I have ever seen.

We have almost a foot of snow on the ground now, I keep busy feeding Squirrels and little birds.

I didn't mean to write you my life history. Hope I haven't bored you.

May God bless and keep you. Thinking you the best.

Sincerely,

Your friend  
Myrtle Ward
