

every bit of news and photographs
and I feel I must keep you
in any way I can to give you
courage to keep going. Please
whatever you do hold on to this
fact that all will turn out
right. I have been collecting
signatures from people here
who like myself believe in
your innocence. I am forwarding
a list of names to you with
it. What the Lord's Best.
Don't whatever you do let
circumstances however long
get the better of you. You said
in your letter that your
father said you felt because
you were a fighter. Don't let
anybody or any circumstances
take that inner part of you
away.
