Such work laws save guard the state from "sabotage" of state property, work stamps and passes as well as permit from proper authorities in regards to conditions of living passes and therefore the "work passes" <sup>is the</sup> indirect control of influx and out flux of what is called "surplus of labor" which in capitalist society has no control and is determined by mode and method of production and ~~economic~~ economic conditions which are allway fluctuating in capitalist society. There fore it is not liberation of <sup>underground</sup> the ~~mass~~ proletarian masses but rather the <sup>control</sup> of state machinery which regulates population and labor <sup>in a geographical sense, and isolates instances of backflow</sup> of labor in <sup>specialized</sup> economic areas which leads to unemployment in capitalist countries due to automation and overproduction, both of which are <sup>carefully</sup> controlled by the state which builds and operates all enterprises in the U.S.S.R. In such cases as there are of overflow of labor the excess is rationed off by the "living visa" system and promptly since <sup>there is no place for them to hide</sup> and the extra workers <sup>there is no place for them</sup> the "virgin land" <sup>exploration</sup> program is instrumented and surplus labor is promptly shipped off <sup>to the virgin land</sup> to a promised room and work <sup>in the virgin land</sup> and has been a spectacular failure mostly owing to the quick subsiding of enthusiasms that the young people (for most part) see conditions of 5 to a room <sup>in the virgin land</sup> erected "towns" of concrete blocks with approved streets in village conditions, a 1000 miles from their mothers and families in the overcrowded, lack of work-demanding cities, mostly Moscow, Leningrad, Khriv, and a few of the other <sup>large</sup> population centers, conditions for leaving the virgin land centers and going back home are simple get up and go, but few do because they must pay their own way back at cost of sometimes \$20, rubles or more and also face the same conditions which, <sup>in the cities in the first place</sup> were often <sup>in the cities in the first place</sup>
