

This made me to be like Isaac in the sight of the LORD.

Now I had warned Kennedy about traveling in a plane with Johnson. As I understand now the events of that period in November, it seems that Johnson was at his ranch, was not with Kennedy in Houston (as I had previously thought), but the Johnsons joined the Kennedys in Fort Worth, Texas, where Kennedy had flown from Houston the night of Nov. 21, 1963; the Johnsons slept in the Presidential suite of the Fort Worth Hotel (I think the Texas Hotel), while the Kennedys were placed in the vice-presidential suite. The explanation related to the type of furniture used in each suite, the Presidential suite being western. (Personally, I have always believed that Kennedy's death was planned for Houston on Nov. 21, 1963, and efforts were made to get me to be present there, even as I watched the parade, a Secret Service agent be standing near me, then someone next to me shoot the President, thrust the gun into my hand, the S.S. agent shoot me instantly (after my fingerprints were secured on the weapon), and then I go down in history as having shot a president...then the records on my mother be exposed...showing what tendencies I had inherited (supposedly)...and there never be any doubt but what that I had done the deed. And having received two long distance invitation urging me to come Houston, and my refusing over the phone, even saying I would not be present when and if Kennedy was shot...even as I believed he would be on the Texas trip...and there being a hitch in the plan, because of the later arrival of the Kennedy plane...even the failure to shoot him at the Latin American meeting he addressed, etc...then the Johnsons were occupying the presidential suite, and in flew the Kennedys and occupied the vice-presidential suit. And he was supposed to have been killed in Houston!

So there was a photograph taken at the Fort Worth prayer breakfast, showing Kennedy with bowed head sitting alone in front of the Johnsons and Connally sitting behind him, with Mrs. Johnson between the two men who also had bowed heads, while Mrs. Johnson's eyes were wide open during prayer...she was staring at Kennedy's back. The LORD told me she was ~~thinking~~ listening to herself these thoughts: "I can hardly believe that today you will be dead, and I will become First Lady. Jeane Dixon's prophecies have never failed yet; and she said you would die on November 22, 1963. That is today! And I just can hardly believe I will become First Lady after all these years of struggles and planning for this very day!"

Then I saw pictures of Kennedy's standing by the Presidential plane in Dallas, and I especially noted a marking on the plane...at the moment I cannot accurately recall what attracted my attention...for the symbol had significance to me. For the Johnson and the Connallys to be in the Dallas parade, then I assume they flew from Fort Worth to Dallas in the plane with Kennedy. Surely they did not all drive over. Thus, if Johnson was on that plane with Kennedy from Fort Worth to Dallas, this was what I warned Kennedy about, and this was direct disobedience of my warning.

If at this point, one might question my ability to prophecy and warn accurately, on July 4, 1961, I wrote the following: "I do not yet have the word of the LORD regarding Lyndon Johnson...I have warned Kennedy to watch Johnson's becoming president over his dead body...It would not surprise me to see Johnson pop up suddenly as president...and a battle ensue between him and me." At least 500 copies of an open letter, containing this paragraph and other vital information, was mailed out over the nation in July, 1961. Keep in mind that Kennedy's body was on that plane that Johnson took the oath of office as President...thus he became president over Kennedy's dead body...and I had warned concerning a vision on an airplane! The battle is yet being waged between Johnson and myself, and when he ordered my arrest illegally May 28, 1964, during that confinement I received further word from the LORD concerning Johnson's identity. I had said in that letter of July 4, 1961, that Johnson was the Abaddon-Apollyon character of Rev. 9:11...this meant that Kennedy would be the star to fall, according to Rev. 9:1...with Johnson's taking his place...and this is a sure word of prophecy and a sure and correct interpretation of the fulfillment of this prophecy. When Luci Johnson was pictured sitting alone as a queen or princess during the Democratic Convention at Atlantic City (I once thought this was held at San Francisco) the effigy of Luci was brought in sitting high in a swing above the heads of the delegates...this made her a public figure and part of the political scene officially, even as this was done to show who was the symbol chosen by Johnson...much like Eisenhower had previously his grandchild David to be the Honorary chairman (instead of mascot) of the Republican Party, with his government on the shoulder of such grandson...then Johnson's government was shown as resting symbolically on his younger daughter's shoulder, Luci Baines Johnson...and at that time the LORD pointed out to be that "Luci's father" was "Lucifer of Isa. 14:12, and Mrs. Johnson was addressed in Isa. 47: thus I had a sure word of prophecy fulfillment while in confinement falsely on Johnson's order.

It has long been taught by Bible scholars that Lucifer was a character who fell from heaven (ruling power) even before the time of Adam, when angels were cast out of heaven for disobedience; however, one only has to note that Johnson often quoted Isa. 1:18 wherein his purpose was to urge others to come reason with him...whereas we were to reason with the LORD...and that need
