Res. J. D. Tippet
POLICEMAN

Gentlemen:

The following is a progress report on the above named patient last seen by me in my office on 7/21/58.

The patient returns for re-evaluation. He states that he hurt his knee while fishing but it has gradually improved. Re-examination reveals good condition of the joint, the synovium and the tendon. The patello-femoral joint palpates good today. The patient is to continue activity and quadriceps exercise and return in six months for AP and lateral of the knee and a longitudinal of the patella and further indications. He is to return sooner if necessary.

Trusting this brings your orthopedic record on this patient up to date, I am,

Very truly yours,

HAW/pds

HAROLD A. WATSON, M.D.
