25 March 1964

Chief of Police  
Dallas, Texas

Dear Sir:

It is rather evident that attempts are being made to make the Dallas police appear incompetent before the rest of the nation. In all of this Jack Ruby-- Lee Oswald mess it is apparent that some one or some group is trying to discredit your organization.

I want you to know that many Americans, including myself, have faith in you and your department. However, I caution you to be extremely careful that those who would discredit you do not have an opportunity to make things worse. If anything should happen now to Jack Ruby it would really make your department look bad.

Good luck to you. I know you are doing the best job you can.

Sincerely,  
*William K. Irwin*
