

I wrote you out a time when the Personal  
outlook for this Person Mrs Oswald was rather  
bleak, and you perhaps considered my Proposal  
as a Job. If so I wish you would dispell  
that Idea. I gave an Honorable Proposal, and  
I did thin and now mean exactly what I wrote,  
I also gave in a second letter a run down on  
the Past 20 years of my life. 20 years ago I was likened  
to the Position of Mrs Oswald, much younger. But I had  
Taken upon myself a Job to make and rebuild a new  
home for my self and 1 Baby. Girl of an unfortunate  
marriage. I later Took for a while a second Baby.  
Neither may have been mine. one for sure was not,  
I could not then consider myself young for the Job I  
Took on would last what may have been my life time  
Circumstancially. This could have been true, therefore  
at 40 years, and not altogether well, I had to consider  
I was Technically 40 years of age Plus the age the one  
Child would be at adult hood, 18 years at least. I  
Understand Mrs Oswald is 23-24, and has 2 children  
she will be very close 45 years of age. If she remains  
unmarried and raises her children, at this time of life  
the best is gone, as it was with me to raise my one,  
last Baby. Now I have a few years, and I am so I  
believe adequately provided for. I need a Companion,  
there are times I must be out, nothing is then done, when  
I work on jobs, or my garden or canning, all else stops  
and I must often refuse to go out and work on a T.V. set.  
So I do loose now and then, with good help such as I  
could may expect, from a marriage with a woman who had  
much to gain nothing to loose. I could when get see a fairly  
good future, and I dare say it could be equal all around.  
So if you will turn my letters over to an F.B.I. agent  
in your City. He can take it from there, and contact me  
with a simple yes, no, or considering sort of reply.
