You lousy people! Reading Manchester's details about the idiot who refused to release President Kennedy's body from Parkland Hospital because of your lousy laws of unlawfulness on your demonic city of Dallas, shows you bloody hate you had against him.

You hipocrites! All you stand for in life is how to cheat each other and make money out of everything you can put your dirty hands on. And those socialites you have who spread all the ill feelings in your stupend city, and who control you lousy police stations and your whole consiensness.

All of you killed the most Dear and Justify President we ever had.

I wish you all to have the most pathetic life you can find. May your city start sinking at all directions and may the hate that spread our beloved President's blood on your dirty streets, give you all kind of diseases and unhappiness.

Go to hell all of you.
