

(My purpose in quoting the above concerning MacArthur, coupling it with my letter to you of March 29, 1961, is to point out that the LORD, at that time (even as He always does), was working on two ends, if not more. Of course, on March 26, 1961, the date of the newspaper article out of London, I had no way of knowing what was happening there... and had little if any interest in what MacArthur was doing or saying: for I remember at the time I thought he was a wonderful Christian--because it was stated he read the Bible daily--so I was greatly shocked when the LORD revealed to me that MacArthur fulfilled Rev. 13:1-8, and instructed me to write this information to Truman on March 26, 1961.)

Now this is what has prompted this present letter: in the letter to you, dated March 29, 1961, this was what attracted my attention... it just stood out as if written in large, bold print: "After I had mailed that letter (to the local District Attorney), the LORD led me to thinking upon the actions of Mr. Carl C. Booth, then He told me the answer to my ponderings was that Booth is one of the leading communists of our country. I do not know why I had not thought of this before. I had only thought of the long array of evidence I had against him concerning my own personal self and I had a gleaming of an idea that there were other things, but I never of myself thought of him as a communist. I remember I used to wonder where he got all his money from without working, and why his brother (Sumner Booth of Dallas), who won Zero Plate in Dallas, let him do as he pleased, etc., as if he owned the plant and his brother was under his direction, instead of vice versa."

Mr. Hoover, aside from my personal interests and experiences with this man Booth, what if he is a leading communist? I have believed all along that in some manner he would be connected with the plan to assassinate the late President, John Fitzgerald Kennedy, in Dallas.

I think the term "communist" should be more carefully defined as to exact meaning. A "Virginia Miller" (I have a niece by that name) has said: "Before December 23, 1918 WE HAD
NO Federal Reserve System--NO World Wars--NO Communist Russia,
NO 'So-called' National Debt--NO One World Government-- NO One World Court
NO One World Bank--NO 'Hay Money' Standard."

Instead of confining "Communism" to Russia, then a brand of it to China, I think we should keep in mind that a band of men, called "Jews" went out of New York with Trotsky into Russia and took over the Russia government; it was in 1917 the Czar was overthrown, then murdered in 1918. Fifty (50) years have elapsed since then; and much is now being published about that fifty-year old revolution that has so changed the world. But little is being said about what happened seventy (70) years ago, August 29, 1897 when a group of men met in Basle, Switzerland in their First Congress, calling themselves "World Zionist Organization" and formulated plans for a one-world government, with head quarters to be at Jerusalem, Palestine... a central world government over the "communists" of the world. This plan is what "communism" really is... and Russia was the first country captured. Even now, "London" is "Mother Babylon" where these world planners have long been "holed up" directing many governments over the world... even controlling elected officials of the U.S.A.!

Now we go back to this man, Carl C. Booth, in Dallas about 1917 or 1918, when he was a "motor-cycle cop" and had his hand shot up by a negro man who claimed he caught him with his negro wife... and Booth was "fired" in disgrace from the Dallas Police. (His earlier record is notorious also.) His wife, Nettie Mae Ralston Booth, my mother's sister, persuaded my father, Victor Wasson Hackworth, against my mother's pleadings (she was Gertrude Ralston Hackworth), to hire Carl C. Booth in his Hackworth's Oil Exchange... and this Booth was in charge when all of us were taken with the flu that killed so many in that winter of 1918-19... my father had secured an oil lease for which he was offered \$3,000,000 cash by a major oil company (the then County Judge, Kenneth Force, Sr. of Dallas, stated this fact to a crowd my Dad addressed in a Liberty Bond Rally where I was present and heard him); upon returning to his office, having recovered from the flu, he was charged with embezzlement (the charges amounted to less than \$600); Booth persuaded mother to have Dad declared insane to escape punishment for embezzlement of many thousands of dollars... Mother believed Booth... my father was taken at once to Brenham, Texas (Washington County) where he had not lived for a number of years, and illegally had a jury rounded up who gave a verdict of insanity as a result of my mother and my father's mother shedding tears, and begging those jurymen to save the family from disgrace... little realizing that what was back of the whole thing was the fight to get possession of my Dad's oil lease. Dad was then taken to San Antonio State Hospital, checked in, released that day and spent some time in the home of his half-sister in San Antonio... the State Hospital gave him a certificate declaring they found him not insane... and he used to show this, saying to others that they could not prove they were not insane... but he could... then produced the paper with all the signatures of the physicians who certified him as "sane."
