To whom it may concern;

I'm doing a research paper on Oswald's part in the killing of President Kennedy. I was wondering if you could possibly tell me where I can reach an officer Hargis that was the officer who was to the left and rear of the Presidents car. If he is still working there please ask him to send me a short letter telling of what he seen, if anything, out of the ordinary behind that fence on that grassy knoll to the right and in front of the president, after the the president was shot. Thank you very much.

Sincerely
Ken Buchanan
