

I did not sign my name to the
letter Jack became at the time
I had written the letter pointing
my finger to the man who killed
you and not appeared. but when
you saw I was not surprised
when ^{James} ~~James~~ killed I had
had my story the press in Cleveland
would have been indistinct then
and if I would write a story I would
also say in the story. If
the FBI had called me I would
have told them why I knew the
facts about the killing. I would
have told them just why that
you come over here asking
about it. I am not a doctor.
