

I did not sign my name to the
letter Jack wrote me at the time
I had written the letter pointing
my finger to the fence as to killing
he could not understand, but when
you see I was not surprised
when ^{the} ~~the~~ man killed G. I had
had my story the press in Cleveland
I would have been interested in it
and I would write a story I don't
know what you say in the story of
the P. B. I had a Red one I would
have told them why I know the
place where the killing occurred
I would have told them just why that
the man was here looking
for a dog & a cat.
