Dear Mr. Kellogg,

I pray nearly every
night that you may get a
letter this week and also income
to your name. I know what
you will say because I will
not be interested in the Rialto
and then you will be turned
I know what it should be
nothing to do with you
I will be sure you will find
more to love in saying the
word "love" and the great
statement of the world.
But you can see there many
people that feel just like me
that you can see something to
do with you. I would like
to see you and know you.
