To My Family

Dear Jack only, I hope that this letter may
bring you some consolation & hope for
a better life.

It is not pity you deserve by your
unlucky fate, you have gotten yourself
in this dilemma, and all the pity in the
world will never change it.

But I have a sincere compassion
for you as a girl's last child, and
maybe your trials will open the
doors for better enlightenment and
communication with your Creator.

My husband 33 years of age with a
Jewish soul, and I were watching
the television and witnessed the same
tragedy that fell on our nation like
a lightning bolt that fall day.

We both cried with grief and
shame that in a wonderful country
like ours, could be so much hate
and malice, to the extent that the
world held as our leading nation.

Love & sympathy
as usual via
