THE FAMOUS ENGINE GENERAL - CIVIL WAR

LOCOMOTIVE This old engine has been recently reconditioned by the U. S. Army and is now capable of running under steam. It is being actively exhibited in the country in connection with the Civil War Centennial. It was captured by General Sherman and his men at Big Sandy, Georgia, and attempted to burn bridges and cut the enemy's lines of communication. In the Great Locomotive Chase which ensued by the Confederate forces which caused by the capture of Andrews, Bailey and the Great Locomotive Chase is one of the most thrilling episodes of the Civil War.
