Dear Mr Jack Ruby

Do you recall receiving a letter from Mrs Dorothy Burdgras of Burham Texas, were the friends of her inoklyn that she mentioned in her letter to you. I follow your trial in the newspapers, on the radio and television very closely. Just when Dorothy Kalfalin of The New York Journal American interviewed you, I wish Dallas Texas, should have had more respect for the late John F Kennedy if also all he picked a man from Texas to run with him for Vice President.

I hear that quite a bit of the population of Texas is very prejudiced, after all the south has been that way since the Civil War Days.

We are all praying for you, don't worry you'll come out with flying colors. Even Vice President Nixon stated that Lee Harvey Oswald got what he deserved, that leaves me bad egg less left in his country. After I finish this letter please what I'm going to have for dinner a nice hot
