in Dallas in my office with me present. I also expressed a sincere and deep desire that no publicity be given to this matter. Since that date I have had no less than four newsmen call attempting to confirm that you were coming to Dallas. I know that no such information has originated from my office. Undoubtedly, you realize that this investigation and the mentioning of his name in connection with the investigation has caused him considerable inconvenience and disturbance. In fact, I feel that perhaps even his entire future has been jeopardized by your actions, and perhaps even his life.

In this regard, I am writing to request that you inform me whether or not you intend to talk with Mr. Arcacha and if so when it will be convenient to talk with him. Similarly, if you are not interested in talking with Mr. Arcacha any further, please so indicate to me in writing. Furthermore, if you are not interested in talking with Mr. Arcacha and if you are satisfied that Mr. Arcacha is not connected with or beneficial to your investigation in any manner, I want you to indicate to me in writing that Mr. Arcacha was not involved, either as a principal or accessory in any manner in the investigation which you are presently conducting. I am certain that you understand that in order for Mr. Arcacha to continue his normal life and be productive he must have something in writing from you to indicate to interested individuals pertaining to his work that he was merely a peripheral figure in your investigation.

Your prompt reply to this request will be appreciated.

Very truly yours,

Frank P. Hernandez
