Police Department.

Gentlemen:

The following is a progress report on the above named patient last seen by me in my office on 9/2/60.

The patient returns this date stating that he is gradually improving and has resumed work, however he has a slight amount of aching pain about the right trochanter during a tiring day. He is able to relieve this by local heat applications. Today the tenderness is markedly improved, he still has slight guarding of his right hip motion. He is to continue work, local heat as needed and return in six weeks for possible final evaluation. He is to return sooner for injection therapy if necessary.

Enclosed please find a statement for services rendered to date.

Very truly yours,

HAROLD A. MITSON, M.D.
