Gentlemen:

I wonder if you would have some information to assist one of our subscribers interested in further details on the assassination of President Kennedy.

He is particularly interested in a Mr. H. L. Brennan, an eye witness to the assassination, and would like to know whether the Dallas Police or the F. B. I. brought Mr. Brennan to the jail to identify Lee Harvy Oswald as the man in the window.

Any data which you could furnish on this topic would indeed be appreciated, and I would like to thank you for your time and trouble.

Yours sincerely,

V. A. Stenberg

Director of Research
