

RESUME of EXPERIENCE and EDUCATION - Declan P. Ford. . . . . 2

April 1950 to  
September 1953

Continental Oil Company, Los Angeles, California  
Made surface and subsurface geological studies of various areas in California and did well-site geology on wildcat wells. During part of this time I was assisted by junior geologists who I trained in the techniques of the work.

September 1948 to  
February 1950

Tidewater Oil Company, Bakersfield, California  
Surface and subsurface geological studies in the San Joaquin Valley of California.

March 1946 to  
September 1948

University of California at Los Angeles  
Received B. A. degree in geology. The subjects taken outside of the geological department were Inorganic Chemistry (one year), Physics (two years), College Algebra, Analytical Geometry, Differential and Integral Calculus, German (one and a half years), Surveying, English (one and a half years), American History and Government, Geography and Physical Education.

May 1945 to  
February 1946

Western Geophysical Company, Los Angeles, California  
Computer on seismograph crew in Montana, Wyoming and West Texas.

December 1942 to  
March 1945

U. S. Navy  
Part of this time was spent at U.C.L.A. and most of the remainder in Officer Training Schools. Received honorable discharge with rank of Aviation Cadet.

I speak Spanish fluently and understand enough French to read geological reports.

My date of birth was March 10, 1923, and I am married and have three children.
