401

Dear Mr. Ruby,

I hope you don't think me too forward in writing you at this time. After the horrible deed of Oswald, we aren't getting so much news about your side of this.

Although, I don't condone your part in this I certainly don't condemn you. If you have no connection with someone and this was a spur of the moment impulse I forgive you. Lots of us wouldn't have done the same thing to Hitler, Calles and the other racketeer given a chance, a gun and the guts!

Enclosed is my business brochure. The photo was taken 10 years ago of my son and I.

I understand you are an ardent admirer of our countries presidents. Collecting stamps of United States has its history on our postage stamps. If you succeed like some U.S. stamps of presidents please advise and I'll gladly send them to you, gratis!

With warmest best wishes

Sincerely

Mrs Laura Korshakoff
