Jack Ruby -

We read in our local paper that you were interested in knowing if the people approved of Lee Harvey Oswald's death.

Since you are not in a position to find out, we went to the trouble to make our own inquiry on the subject. Almost 99% thought it was the worst thing that could have happened and did not approve.

As you read this we hope you will realize the many, many innocent people you killed or put a mark on for life. Think of you with the lady in Chicago watching T.V. last Sunday morning.
