Dear Mr. Oswald:

11-25-63

While it is terrible regrettable for our beloved Pres. Kennedy's fate; it would only add horribleness to continue accuse or falsely put you to death for such a mistake. For this would not explain why such happened, not clear unwise-fearfully thinking, whereby such as this and worse, would continue oftener; as this evidence can be viewed science-way as we'll propose to save your life; and put end of these of necessity, again and again. Even sparking International Chaos, by error continuing

For we do know the precise enlightenment in equitable laws of livingness this takes to spotlight such basic cause of unease.....that creates such hateful things, beyond control & growing destructiveness of anyone & all...but known-direct-natural science, thus offered & pursued can & will exonerate you...by putting the blame on the true cause, as due. We would have to give you 100% trusting-co-operative aide & have yours thus (rapport) likewise. This entails only genuine-tender-loving-care; that actually supplies positive deeds etc. you're in need...to supplant negativism as holds traditionally-erroneous; but science-process thus will clear, & release you. Also speediest-easiest show God-like-wisdom (Love-science) to clarify-prevent

Our beloved President would have seen it this way.....had he lived, perchance ^{& not} / Another's life, to forfeit in his stead, but to occasion seeing straight, to save lives aright. Rather than chance furthering, what forfeited his..unscientific-hate. For such views of source of love, or humanitarianism, conflict in lightnings of death such as this...as delinquency, crime, antisocialism, wars etc. and climaxed him, paying his...highest price, life. Sure, he had forebodings of it...Yet, he'd not yet made up his mind to change it...ie, take wisely-quickly enough, this step we'd written him, priorly.

We're exceedingly, in sympathy with you and your family, of wife & 2 children etc. even more than Hon. Pres. family & relatives.....because in need of help thus, so very much more.....whereas, theirs, heroic, & popular etc. but you & yours made be subjects of other extreme, hates. Yet, unless corrected straight, quick, will spread, even worse, the further civilization goes, without this corrective precise-love, now

For instance: to emphasize its immensity, and at same time the difference of what's usually expected lets say.....it is in realm of human unity between the sexes as mates, basically in human-relations as where cause of troubles spring or originate. And these springs are fed by unnatural-superstition highest-accepted-respected tributaries that poison such basic relations between mates that invert their love into hate re-actions of arrogance, resistance, spite etc. instead of equity-unity satisfying love re-actions induced thus educatively-believed & received. Hence, it is a psychological hate-unease (that's similar to disease undetected, & fed) that's increasingly & distastefully overwhelmingly erupting like volcanoes of emotions, individually and socially, unsuspectingly & uncontrollably. This basic unscientific-educative cause/at fault (to erupt thus) rather than the persons, involved. Sorta, the vast difference between an imitative & a genuine principle of love; of god, of unison thus as evolves unity of mates (family-progress) else disuniting-eruption. Like environmental fever; its source of cause must be shown and its remedy and preventiveness also....in your case, whether guilty or no....to prove it & you freed by science thus....or call a miracle of Love or God, so unusual but sure.

So sure, yet safe....and taking a setting similar to your case to demonstrate, let us put it this way: if you'll wholly co-operate in requesting our aide at once as your legal & civil rights proscribe, diligently pursued....to let us be notified, accordingly....then we'll guarantee without fee, to save your life & be restored to your family happier-healthier-wealthier etc. than yet seen, or we will take your place by jeopardizing our lives voluntarily in offering thus such proving of love-example (Lovology) in your behalf vainly. I.e. fraudently-obstructing justice Etc. So even if sounds crazy...don't be afraid; but act in faith & haste
