in this pure natural constructive science way to save yourself and contribute even more in remedying conditions; needlessly evoking such, in lieu of precisions enough in basic human-mechanisms-efficiently, for altogether good, there's none need strive, get hurt, or die ... that repercussive, happens thus; until such basics of life are perceived & available made equitably to persons & societies alike. Yes, similarly to electronics in physics & biology relativitv...but even more precise & important in mental-spiritual-intellectualism between polarities of mind (male-female) likewise...created as 1/2 units that can only operate constructive all time when unisoned in true love, mature-adult-wise thus enough. But disallowed in unnaturalness (unscience) beliefs, from teachings or ignorance, creates poisonous-potential-hates instead of love, that both internally & externally hurting and destructively-compellingly uncontrollably against selves & others, unseemingly breaking out worst & where least suspectingly degrees of hate is caused for some instead of rational love for all. Hence, the issuance of altogether good for every one, and deprivation & malice for none.

Word has come over our T.V. to confirm the death of Mr. Oswald, evidencing what is being said...his need of aide in haste as now too late; it will be sent on to his murderer, instead. For the essence applies the same. He's also a victim of his environmental spread of such hate-vindictiveness etc. that's infectious to blame beyond personal control without educatively aide to know & constrain ignorant-poisonous sources. This is our society's or nation's over-all blame, and need, for confronting such unseemingly creativeness of this hate-disease in highest-respectiveness unseen, instead of unifying pure-love constructiveness these pretend. In other words, however, it is not enough to blame hypocrisy in high-faces but rather to further explain the science of how & why intellectual-dishonesty thus happens at all that's at fault. For precisely showing such insidious-unnatural-inclination & means of speaking & doing inequitably-dishonestly is in themselves proofs of psychosomatic illness...that is, any dishonesty-inequal-respect etc. is such a most deceptively injurious to self disfunctionally & attracting like-wise external degrees of conflicting-destruction thus, while at same time diffusing selves toward others accordingly...more or less correctively or deceptively & evidenced in thus reaping as sown...science-relatedly-enlightened or to continue unknown, meet fates prematurely & mistakenly in ones own behalf...but in a Christ-sense accent such urgency & expiacy of love-basics needed in mates & humanity...on the urgency-positive side, affect-invitingly success by death as life hadn't...then the negative side, effect expiation for self & all, for such unknowing-how default was thought unavoidable; but erroneously thus Lovology-wise or god-like-created.

Because until full equitably-satisfying-respect is constructively-praisingly upliftingly strengthened in mates in unison of love as basic to unity of humanity, instead of the other way around-erroneously-esteemed individually & collectively such diverse and adverse outcroppings of personal & collectives of hate as seen will increase fatal mistakes & deaths...silly & collective crime, wars etc. Because personal misplacements of esteem & respect misfits and disfunctions each in less efficiency-hurting uncontrollably in degree of self & others untrue-advice is believed & conformed, to create such hate-viciousness rather than pure-nature wise believed constructively relaxedly-creates love's efficiencies & satisfying 1/2 unity-mating etc. thence over-flowing sharings of all good as needs be rather than any disunity or denyings of love aright, in striving & taking of life, not at

While this can only begin to explain how Love-Science (Lovology) or god-Like-wise can save your life, and straighten & smooth things that all good will issue instead, if refused etc. you'll die & things continue repetitously & worsen until this basic-fuller-truth-livingness is put into practice as fore-told & need. And to call attention to appropriate officialdom to allow thus and take implement expediently, that is every step & aide to hasten this called for test & proving its absolving remedy & salvation wholly-adequate unto you & humanity as unfolds

Completely trust-loving you and every one to co-ordinatedly respond mutually in relief and beneficence accordingly to notify us for next steps of aide thus be taken immediately. Copies sent others to verify & enclosures. Yours truly,
