

I realized too late that the man had a soul - to pray for him. I serve a God of love - a gracious, merciful God! One who is able to forgive and cleanse from all sin. It's too late to pray for Mr. Oswald - or to witness to him of God's love. Now - look back on the events - our dear President's assassination. We can say that it was the planning and work of the extremists or Communists - or what have you. But really, behind it all is a three-letter word SIN. Behind your deed is the same three-letter word SIN. You, no doubt, felt justified in what you did, but two wrongs never make a right! Oswald would have received his just dues without your having acted as you did. "Vengeance is mine, saith God. I will repay."
