Mr. Jack Rubenstein,

We are dropping by this few lines just to let you know how we feel toward you.

You are not innocent for what you did. How come you know who to kill? Why didn't you kill anybody else before. You killed that man because you were afraid that he would talk with the truth about killing our Dearest and Beloved President Mr. Kennedy. We feel no good now without him. How did you walk into the jail with Guards around there that means that some Police or Guard is mixed up in that killing too, just as you are. You may have friends but you have many more enemies. and if you come out free your conscience won't let you live thru, after all there's a good heart that it beg him to do what he has to do. So you better talk but think first about it, think about your future because you don't desire to live. You might fool too many people but not us, So talk with the truth because your enemies won't let you get along with. All our town is very sad with the loss of our Beloved President. May He be resting in peace. Shut and talk before anything more happens.

Always and Forever
Your Loyal Enemies
