SUPPLEMENTARY-OFFENSE REPORT

CITY OF DALLAS

| | | | |
|---|---|-----------------------------|--------------------------------------|
| COMPLAINT NUMBER - FIRST NAME INITIAL General Edwin A. | OFFENSE AS REPORTED AND DATE Murg. by firearm | TIME DATE 4/11/65 | OFFENSE SERIAL NO. F-48156 |
| POLICE DIVISION OF INVESTIGATION, ETC. 4/10/65 | | | |

On the complaint on this date, through interviews with the employees, who are voluntary workers at this location. General Walker stays in the house at 12345. Investigation reveals that an unknown assailant in all likelihood shot from the alley directly north of the rear part of the house. Investigating officers found a very small chipped edge of the top portion of the rear door. This small chipped portion indicated that something had been laid on this door very recently, as this was a fresh chip. In lining up the path of the bullet, it indicates that the shot was fired from just below the chipped portion of the door. The bullet struck the window frame near the center locking device. The point where the bullet hit the window frame to the point where it struck the door is a downward trajectory. The back yard is an up-grade to the alley. The alley runs the length of the house at the alley is a lattice type fence made out of galvanized iron, with approximately 8" open spots. It is the investigating officer's opinion that the shot was fired from just below the top edge of the fence. The alley runs in a southerly direction, is bordered by a parking lot of a church to the east. The alley runs the length of the house at the alley then takes up in a northerly direction to the church street. The witness, Kirk Coleman, lives at the north east corner of the church property just across the alley and directly across north from the parking lot. This person has not been contacted by us as he is a volunteer worker and will be contacted at a later time as he could furnish valuable information which he observed the incident. An interview with the volunteer witness revealed that they had not received no crank calls or letters preceding the incident. An interview with Mr. Surrey reveals that two white men in a 1963 Ford coupe or dark brown parked in the alley directly behind the complainant's house at the corner of Avenida street. These persons were witnessed getting out of the car, walking up to the property line and smoking the place over. Mr. Surrey, one of these subjects and followed the car away from the location in order to get a license number. Mr. Surrey states that there was no license number on either front or rear, possibly this was a new car. A thorough search of the premises revealed no spent cartridges, no tracks or other evidence. The complainant's dog to the west of the Walker property is a fanatical dog and the witnesses did not make a sound. Gen. Walker recently accepted a subscription to a monthly magazine the American Mercury, and the complainant has since. It is assumed the suspects had a minimum of knowledge of the complainant's activities. From where the complainant's car was fired from the distance is approximately thirty feet and there is a clear view as there are no window shades.

Edwin A. Walker
