

other data in Commission files were made available, and Mr. Craig and his associates were given the opportunity to cross-examine witnesses, to recall any witness heard prior to his appointment, and to suggest witnesses whose testimony they would like to have the Commission hear. This procedure was agreeable to counsel for Oswald's widow.

### THE COMMISSION'S REPORT

In this report the Commission submits the results of its investigation. Each member of the Commission has given careful consideration to the entire report and concurs in its findings and conclusions. The report consists of an initial chapter summarizing the Commission's basic findings and conclusions, followed by a detailed analysis of the facts and the issues raised by the events of November 22, 1963, and the 2 following days. Individual chapters consider the trip to Dallas, the shots from the Texas School Book Depository, the identity of the assassin, the killing of Lee Harvey Oswald, the possibility of a conspiracy, Oswald's background and possible motive, and arrangements for the protection of the President. In these chapters, rather than rely on cross references, the Commission on occasion has repeated certain testimony in order that the reader might have the necessary information before him while examining the conclusions of the Commission on each important issue.

With this report the Commission is submitting the complete testimony of all the witnesses who appeared before the Commission or gave sworn depositions or affidavits, the accompanying documentary exhibits, and other investigative materials which are relied upon in this report. The Commission is committing all of its reports and working papers to the National Archives, where they can be permanently preserved under the rules and regulations of the National Archives and applicable Federal law.

Items of Evidence  
Pertaining to the  
Assassination of President Kennedy  
which should be retained  
permanently by the
