Honorable Burt M. Henson California Assembly 34 South Chestnut Ventura, California

Ł

Dear Mr. Henson:

President Johnson has asked me to thank you for your thoughtful letter of November 22, 1966, recommending that he direct the Warren Commission reconstituted to consider the critics' objections and to issue a supplemental report as a "rebuttal." The President appreciates having your views concerning this matter.

JAN 10 1967

Your latter states that the group on whose behalf you wrote has confidence in the Warren Commission findings, although you know many people who have serious doubts. We, too, believe that the evidence amply supports the basic conclusions of the Commission. It is noteworthy that the suthors who have criticized the conclusions of the Warren Commission do not claim to have any significant new evidence, so far as we are aware. Rather, their criticisms and demands for a new inquiry are based upon different conclusions they have drawn from parts of the same body of evidence that was examined by the Commission.

The President is grateful for the good wishes which you expressed for his recovery and for your words of support and encouragement.

Sincerely yours,

INSPTD	AN	ID MA	n.in

The Honorable Lyndon B. Johnson President of the United States White House Washington, D.C.,

Dear Mr. President:

}

STATE CAPITOL

DISTRICT OFFICE SOUTH CHESTRY VENTURA

I am writing in behalf of a small group of local democrats who meet periodically to discuss public affairs.

First of all, we hope that your operations have been successful and that you will soon recover fully.

Secondly, we appreciate your recent travel to the far east. You probably hear only complaints about Viet Nam. But we know you inherited this situation from two previous administrations and we applaud the firm and decisive action you have taken in that area.

Thirdly, we regret the publicity given critics of the Warren Commission report on the Kennedy assassination. We have confidence in the Warren Commission findings but we know many people who have serious doubts. We recommend that you direct the Warren Commission reconstituted to consider the critics' objections and to issue a supplemental report as a "rebuttal" with maximum graphic and television coverage.

Lastly, we think you are a great President and we support you and we thank you for your courageous action in many difficult situations.

Sincerely,

art Henson

I have been asked to reply to your letter requesting information as to whether title to Warren Commission Exhibit No. 2466 was vested in the United States pursuant to Public Law 89-318.

Title to the items described in Commission Exhibit No. 2466 has been vested in the United States. For your further information, I am enclosing a copy of the Federal Register of November 1, 1966, which contains a copy of the Acting Attorney General's determination pursuant to Public Law 89-318 (page 13968, et seq.).

Yours truly,

Mr. Walter T. Skallerup, Jr. Deputy Assistant Secretary of Defense Security Policy Department of Defense Washington, D.C. 20301

Dear Mr. Skallerup:

This is in reply to the letter from your office dealing with our use of the term "classified defense information" in describing certain material relating to the Warren Commission investigation that is still being withheld from public inspection.

The use of that term in responding to inquiries from private citizens concerning the availability of the unpublished records of the Warren Commission was not intended to suggest that all of the classified information relating to the Commission's investigation, which has not been declassified and released to the public, is information that was classified within the Department of Defense. Rether, those words were used in describing the withheld classified documents because the words "defense information" are the precise words used in Executive Order No. 10501 of November 5. 1953, to describe the sole class of information that is It subject to classification under that Executive Order. was felt that the use of the exact terminology of the Executive Order would tend to minimize claims that the withheld documents are improperly classified.

However, in the future we will refer to such information as "classified security information" rather than "classified defense information" in an effort to avoid having the classification of such material attributed to your Department.

Sincerely, NOV 16 1966 R.R.2.

Senator Robert F. Kennedy New Senate Office Building Washington, D. C. 20510

·'|

Dear Senator Kennedy:

It is little wonder that crime grows daily on our streets when our system of justice allows Jack Ruby to kill a man in front of millions and face, if convicted, a mere three year prison term. Our courts are fast becoming a mockery.

I am deeply concerned and would appreciate your comments.

Very truly yours, 7

Fred N. Vinson, Jr. Assistant Attorney General U. S. Department of Justice Constitution Avenue & 10th Street, J.W. Washington, D. G. 20530 Re: Prosoribed Federal Statute Exist.

Dear Mr. Vinson, Jr.

The State of Texas, having no jurisdiction over Smith Act, passed 1940, by Congress of the United States, which Act was "knowingly" and "willfully" violated by "destroying by force" and "violence" the executive government of the United States, November 22, 1963, by Lee Harvey Oswald, Lacks the jurisdiction to try Jack Ruby.

OCT 1 3 1963

Department of Justice Washington 20530

September 3 0, 1965

7C Dear

Attorney General Katzenbach has asked me to reply to your letter of September 19, 1966.

With the exception of certain specified instances, such as where the act is committed on Federal property, the crime of murder has been traditionally reserved to the jurisdiction of the several states. The Tenth Amendment to the Constitution places within the scope of state authority all matters not specifically delegated to the Federal government. At the time of the assassination of President Kennedy and subsequent killing of Oswald, then, such acts amounted to violations of the law of the State of Texas since no Federal statute progeribed them when committed under those circumstances.

It is my hope that the above discussion proves informative. Your interest in writing to the Attorney General is appreciated.

Sincerely, Ci P. Jacky.U FRED M. VINSON, Jr. SEC.

COURT OF CRIMINAL APPEALS OF TEXAS

JACK RUBENSTEIN, alias JACK RUBY, APPELLANT

M

NO. 37,900 VS. ---- APPEAL FROM DALLAS COUNTY THE STATE OF TEXAS, APPELLEE

CONCURRING OPINION

I agree with the result reached by Presiding Judge Morrison in his opinion reversing this case. However, I desire to elaborate more fully on the error of the trial court in refusing to grant the motion for change of venue. I shall recite in detail some pertinent facts in the case pertaining to the venue question.

The trial of this cause started February 10, 1964, with a change of venue proceeding. It culminated the following March 14, 1964, with the death penalty verdict. The hearing on venue and subsequent proceedings took place in the same building to which Lee Harvey Oswald was being moved at the time he was shot. This same Ruby trial building is situated approximately one hundred yards from where Lee Harvey Oswald assassinated President Kennedy two days previously.

It is apparent from the record that President Kennedy's assassination occurred at a site on a Dallas Street so close to the Ruby trial courthouse that it could be seen daily by the jurors. At the time of this trial this location was being visited by the public who were placing wreaths at the historic spot out of respect to President Kennedy. Traffic was even then becoming jammed in the area by spectators.

Dallas was being blamed directly and indirectly for President Kennedy's assassination and for allowing the shooting of Oswald by Ruby. The feeling and thought had been generated that Dallas County's deprivation of prosecuting Oswald could find atonement in the prosecution of Ruby. The writer feels it fair to assume that the citizenry of Dallas consciously and subconsciously felt Dallas was on trial and the Dallas image was uppermost in their minds to such an extent that Ruby could not be tried there fairly while the state, nation and world judged Dallas for the tragic November events

¥

Ruby, 2.

The press had a field day with stories stating directly, indirectly, by hints and innuendoes that a Communist conspiracy existed between Oswald and Ruby. Ruby was referred to as a "tough guy." a "Chicago mobster," a strip-joint owner. Anti-Semitism against Ruby was sparked by pretrial publicity that Ruby's name had been changed from Rubenstein to Ruby.

The strong local prejudice against Kuby was reflected in the refusal of the County operated Parkland Hospital to permit Ruby to undergo neurological testing for the purpose of determining his organic brain condition for trial purposes.

The trial judge retained the services of a prominent public relations counselor to handle the courtroom seating, the press, the trial publicity, and public relations in advance of the venue hearing and for the entire trial. Some 300 members of the news media occupied most of the seats in the courtroom.

The fact of the shooting of Oswald had been seen on television many, many times on that fateful day, November 24, 1963, in the Dallas County area, by countless thousands of citizens. This alone precluded Ruby from receiving a fair and impartial trial by a Dallas County jury. A fair and impartial trial is the rightful boast of western civilization.

Against such a background of unusual and extraordinary invasions of the expected neutral mental processes of a citizenry from which a jury is to be chosen, the Dallas County climate was one of such strong feeling that it was not humanly possible to give Ruby a fair and impartial trial which is the hallmark of American due process of law.

The late, eminent Mr. Justice Frankfurter stated in his concurrence,

÷

in <u>Irving v. Dowd</u>, 366 U. S. 717, 729, 730: "* * * rudimentary conditions for determining guilt are inevitably wanting if the jury which is to sit in judgment on a fellow human being comes to its task with its mind ineradicably poisoned against him. How can fallible men and women reach a disinterested verdict based exclusively on what they heard in court when, before they entered the jury box, their minds were saturated by press and radio for months preceding by matter designed to establish the guilt of the accused? A conviction so secured obviously constitutes a denial of due process of law in its most rudimentary conception." Ruby, 3.

Ten of Jack Ruby's trial jurors witnessed the shooting of Oswald on television. They were challenged for cause under Article 616, V.A.C.C.P., which prohibits a witness serving as a juror. Such challenges for cause were summarily dismissed and disposed by the trial judge with dispatch.

Other than the testimony on voir dire of jurors Shields and Malone, we shall pretermit detailing the voir dire examination of the jurors.

Juror Shields witnessed the shooting on television. She was objected to as being a witness to the offense as well as the others who saw it on television. The trial court refused to grant Ruby an additional peremptory challenge so that he could remove her as a juror. Ruby moved the Court to swear Juror Shields as a witness and the Court refused.

Juror Malone was a witness to the shooting on television and was objected to as being disqualified under Article 616, V.A.C.C.P. She knew that from what she had witnessed on television that Oswald was shot in the Dallas Police Station November 24th and subsequently died as a result of being shot with a pistol. It was the most extraordinary thing she had ever witnessed.

Nothing could remove her fixed knowledge of Oswald's being shot in the Dallas Police Station. The only thing she did not know about the case as a fact was who fired the gun. All other issues pertaining to the shooting of Oswald were firmly and permanently fixed in her mind. She subsequently learned from television that it was Ruby who shot Oswald.

The trial judge seated her as a juror over the protest of Ruby's counsel who insisted upon being given additional peremptory challenges in order that she might be challenged as an objectionable juror.

The crux of Juror Malone's disqualification as a juror is explicitly reflected in the following excerpt during her voir dire examination:

- Q: "But you do say that from what you have seen and read, it is firmly fixed in your mind that this extraordinary shooting you witnessed was to the effect that Oswald was shot that Sunday morning, in the police station, and the only thing you don't have fixed in your mind is who did it. Is that right?"
- A: "That's right."

Ruby, 4.

Mr. Tonahill:	"May it please the Court, we exercise and in- voke Article 616, Code of Criminal Procedure, and ask that the lady be excused for cause."
The Court:	"Overrule your challenge."
Mr. Tonahill:	"Exception."

Article 616, V.A.C.C.P. (6) commands and requires that witnesses to the charged offense cannot serve as jurors. The Supreme Court of the United States in <u>Rideau v. Louisiana</u>, 373 U. S. 723, has held that such objectionable jurors as Shields and Malone were, in effect, witnesses to the offense. Further, that Court has held that even non-wit nesses who have been saturated with prejudicial news releases and rumors, and who hold a state of mind as objectionable jurors Shields and Malone possessed were not qualified as fair and impartial jurors, <u>Irvin v. Dowd</u>, supra.

There can be no difference to the competency of a witness who has heard via telephone or radio, or saw a matter through a mirror or field glasses, and a witness who has viewed a matter on television. A contrary holding would undermine the sound principles underlying the utilization of a scientific amplification and reproduction of sensory events, and thus unduly hamper the work and function of the triers of fact. In short, the television viewer meets the established criterion of personal observation required for a witness' competency. <u>Estes v. Texas</u>, supra. The State operated from this inevitable and certain principle when it introduced the television film of the shooting of Oswald before the jury as direct evidence of the shooting.

The trial court could not, consistent with the due process, assume that the objectionable jurors Shields and Malone were endowed with a sense of detachment, so clear in introspective perception of their own mental processes that they could possibly exclude even the unconscious influence of their preconceptions as to all the established facts except identity of Ruby. Their mental processes were engendered by a pervasive pretrial publicity which denied Ruby his guarantee of a fair trial by a

Ruby, 5.

panel of "impartial, indifferent" jurors; because, "the failure to award an accused a fair hearing violates even the minimal standards of due process." Irvin v. Dowd, supra, at 722.

. . .

Against this background of crystalized opinions of the existence of the material issues with which the State was burdened to prove, Jack Ruby was forced to trial under the most adverse, unusual and extraordinary circumstances that this member of this Court has yet had occasion to consider.

It is stated in Estes v. Texas, supra:

"A defendant on trial for a specific crime is entitled to his day in court, not in a stadium, or a city or nationwide arena. The heightened public clamor resulting from radio and television will inevitably result in prejudice. Trial by television is, therefore, foreign to our system."

It was established below on the hearing for change of venue, the jury voir dire, and the quick verdict that the firmly established legal principles of law in this state and nation cried out for a change of venue of this case, which would guarantee Ruby the fair and unprejudiced trial which he failed to receive. At the same time, such transfer would cast no reflection, indictment against, or a challenge to the honesty, integrity or inability of the Dallas citizenry to give such. <u>Rogers v. State</u>, 236 S. W. 2d 141.

In the brief of the Friends of the Court, and during his oral argument at the Bar before this Court when he appeared under the designation of this Court as "Friend of the Court," trial counsel Tonahill ably urged and pointed out this basic principle of our jurisprudence which this Court has consistently followed.

The principles compelling a change of venue have been enunciated by this Court many times. <u>Streight v. State</u>, 138 S. W. 742; <u>Coffman v</u>. <u>State</u>, 136 S. W.779; <u>Williams v. State</u>, 283 S. W. 2d 239; also see: <u>Cor-</u> tez v. State, 69 S. W. 537 and <u>Manley v. State</u>, 137 S. W. 1137.

The general rule that a change of venue lies within the sound discretion of the trial judge has to give way when an unfair jury is forced

· · · ·

Ruby, 6.

on one charged with crime.

It is to be noted that all twelve of Ruby's jury entertained some conception of his guilt, one way or the other. The people of Dallas County had been exposed repeatedly and in great depth to the actual shooting of Oswald on television re-runs. In a similar case, <u>Rideau v. Louisiana</u>, supra, the Supreme Court of the United States did not bother to look to the transcript of the voir dire in reaching its determination as to prejudice:

"* * * We do not hesitate to hold, without pausing to examine a particularized transcript of the voir dire examination of the members of the jury, the due process of law in this case required a trial before a jury drawn from a community of people who had not seen and heard Rideau's televised interview. * * * " 373 U. S. 723, 727.

This Court has been furnished with many outstanding briefs and many oral arguments were made by a battery of very able lawyers on both sides. This writer has been especially impressed with the conduct of Honorable Joe Tonahill. Through much stress and strain, misunderstanding among client and appellant's relatives, he has exemplified the highest standards of the legal profession, remained true to his duty, and done an outstanding job in briefing and presenting this case before this Court.

I concur in the reversal of this cause.

McDonald, Judge

(Delivered October 5, 1966.)

Form DJ-150 . (Ed. 4-26-65)

UNITED STATES GOVERN TNT

DEPARTMENT OF JUSTICE

Memorandum

то : Files

DATE: October 7, 1966

FROM : W. David Slawson **WAD** Office of Legal Counsel

SUBJECT: <u>Warren Commission</u>

Burke Marshall asked Harold Reis whether the Commission had actually considered Kennedy's clothes and the photographs and x-rays in connection with the autopsy. Harold asked me to find out. I called Norman Redlich and he said this was all dealt with in Dr. Hume's testimony and he agreed with me that so far as he knew the Commission had not seen either photos or x-rays.

The relevant testimony is in Volume II, pages 347 <u>et seq</u>. References to x-rays and photos are:

when taken 349

are of value 350

photos not available for purposes of making exhibits 350

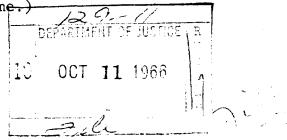

disposition of both 372

possible use of photos by doctors 352, 369

use of x-rays by doctors 353 (2 references), 355, 361, 364, 372

Commission itself not see either 371-72

(See also the autopsy reports at 542-43 and 545 of the Report volume.)

On page 365 the doctor testified that the front shirt rip indicated an exiting bullet. On page 366 he testified why the shirt and jacket holes were lower than the body holes.

The relevant statute, P.L. 89-318, 79 Stat. 1185, reads in part:

"It is hereby declared that the national interest requires that the United States acquire . . . certain items of evidence, to be designated by the Attorney General pursuant to Section 2 of this Act, which were considered by the President's Commission . . . and requires that those items be preserved by the United States."

I would therefore tell Marshall that neither photos nor x-rays were seen by the Commission or its immediate staff, but that the x-rays were an integral part of the doctor's autopsy, <u>i.e.</u>, a tool, and the photos, although not a tool, are taken as a matter of course in all autopsies of persons suspected to have died violent deaths and serve as a record of the autopsy, especially a record of appearances that are destroyed by the autopsy itself.

As to the clothes: the jacket, shirt and necktie, all containing bullet holes, were seen by the Commission and given Commission exhibit numbers. The other clothes were given FBI exhibit numbers but not seen by the Commission, because of a staff determination that they were not relevant to anything (except possibly by reason of the fact that they did <u>not</u> contain bullet holes). A number of other FBI numbered exhibits were similarly winnowed out by staff review of the items in the FBI's possession.

book would have been stronger if he had not applied to the later murder of the policeman, Tippit, the same analytic technique which he presents with so careful a selection and omission of his facts that the procedure becomes absurd. Mr. Lane says there is no proof that Oswald shot Tippit although any jury would undoubtedly have found him guilty.

'Mr. Lane's book has been described by one reviewer as the first-class job of a defence lawyer with a weak case. That's about the size of it. There may be a case against the Warren Report. If Mr. Lane had it, he spoiled it.

"But Mr. Lane's extravagance is fully matched by the book's introduction written by Hugh Trevor-Roper, Oxford's regius professor of history. Mr. Trevor-Roper plunged into an attack against the Warren Report when it was published. He got such a thumping from his university colleague, John Sparrow, of All Souls College (who went a long way to proving that Trevor-Roper had written his article before he had read the report), that one would imagine he would now be more careful. Not a bit of it. He appears to find in Jack Ruby, the wretched, squalid little man who murdered Oswald, the key to the mystery:

"'Ruby's movements and contacts,' he writes, 'before the assassination, like those of Oswald, were unexplored. Today Ruby is the only man who might still, at first hand, reveal the truth.'

"That beats all."

AGENCY USE	
ACTION I AE.Y INFO. I/C I/R	Two British publishers will bring out bocks within the week which are critical of the Warren Commission findings in the assassination of President Kennedy. The books are Mark Lane's 'Rush to Judgment'' published by The Bodley Head and Edward Jay Epstein's ''Inquest'' published by the Viking Press. Publication dates are September 22 for the Lane book and September 27 for Epstein's. When the post first learned that the books were to be published here (See FM 17, dated August 17, 1966), steps were taken to mitigate their
ICT/K ICT/K ICT/R IGC ICS IPS	 impact. Among these steps was an approach by the Cultural Attache, Dr. Edward D. Myers, to Professor Arthur L. Goodhart suggesting that he might be interested in preparing reviews rebutting the criticisms contained in the books. Professor Goodhart was selected because he is one of Britain's most respected legal authorities, having been, before his retirement, Professor of Law and Master of University College Oxford. Professor Goodhart is a member of the U.K U. S. Educa- tional Commission and, before going to Oxford, was Professor of Law at Cambridge, Yale and Harvard Universities. Professor Goodhart agreed to undertake the project. His review of the two books will appear this Sunday, September 25, in the Sunday Telegraph. Copies of his review, in his own handwriting, are enclosed.

September 21, 1966

RECEIVED

OCT 1 7 1963 CRIMINAL DIVISION

I feel the special commission which investigated circumstances surrounding the lamentable assassination of former President Kennedy, headed by Chief Justice Warren, was a dedicated body, determined to pursue its difficult assignment with objectivity and earnestness, and performed a valuable public service.

The members were outstanding, knowledgeable, conscientious American citizens, including several of the most widely-respected Members of Congress, and I am confident they were aware constantly of the importance of their task. They are the type of individuals who by habit are painstaking and thorough.

I am in no position, on the other hand, to judge the competence or qualifications of various lesser-known authors of the several critical commentaries which have appeared lately casting doubt on the validity of the socalled Warren Commissions conclusions.

Sincerely yours

THOMAS H. KUCHEL United States Senator

4-23-66 President Lyndon B. Johnson White House tvashington 25, X 29-11-PORTM - USTICE Dear President Johnson 4 1966-Enclosee is a Capy of the from Congressman Chit Hollifield, replying to a wire. I felt obligated to reply to Congress man Hollifield's letter. The same wire was sent to both Sevators Marphy and Kucher, mithin of whom have replied to date

I have complete faith in the thoroughness and accuracy of the Warren Commission's Report. No evidence supports the notion that any group or person other than Oswald was directly involved in the assassination.

Sincerely yours

CH:lm

Dear Friend:

You are evading the issue. Fither Knowing by, or through ignorance. And of the two, ignorance is the harder to overcome. Therefore we unge that you avail yourself of information relating to the ambiguities and incongruities in the Warren Commissions Report.

With regard to your ensurer to our previous request; we don't know, whether Oswald was guilty of the assarination or not. This we believe, should be established legally.

Over- Please

However, our request was not on this point, although a review of the "Report" would necessarily also dwell on this area. We recognize that we speak as a minority. But in order to preserve and establish democratic procedures, such procedures must be open to criticism. It then follows that minurity opinion must be heard and minority questions answered and satisfied. Certainly we are not the only ones seeking redress of our conscience through an honest review of the Report" There is much at stake, with absolutely nothing to lose. If ??? there is to be pain -- let it be today with pride. Not tomorrow with repentance and shame. PLEASE, do not turn your back on this request too readily ,-As your constituents we request a Review of the Warren Commissions Report, Sincerelyn

P.S. Truth and justice are not the rewards of --- "FAITH."

Typed:9/12/66 FMV:TES:sz 129-11 September 1 6, 1965 C_SEP 21 966 Dear

On behalf of President Johnson I wish to thank you for your letter dated August 3, 1966 concerning allegations made by Mr. Mark Lane. He always appreciates the helpful interest of those who write and make their views known to him.

At the present time, I am awars of no plans to reopen the inquiry of the Warren Commission. You may be interested to know, however, that Mr. Lans appeared as a witness before the Commission on two different occasions and thus had ample opportunity to disclose to appropriate officials any and all information which he had in his possession.

Your confidence in writing to the President is very much appreciated.

Sincerely,

FRED M. VINSON, Jr. Assistant Attorney General

FORM DS-322

FMW:DCS:em File:129-11 Honorable William Proxmire United States Senate Washington, D. C. 20510

Dear Senator Proxmire:

This is in reply to your request for the comments of the Department of Justice on a letter to you from a second

University, calling your attention to an article in The New York Review of Books and asking that you urge the United States Senate to reopen the question of President Kennedy's assassination. The article is entitled, "The Second Oswald: A New Theory of Kennedy's Assassination," and, in the opinion of the Warren Commission. 7C

The author of this article, later published as a book, and the other authors who have criticized the conclusions of the Warren Commission do not claim to have any significant new evidence, so far as we are aware. Rather, their criticisms and demands for a new inquiry are based upon different conclusions they have drawn from parts of the same body of evidence that was examined by the Commission. The Commission made a thorough inquiry and detailed analysis of the facts concerning the assassination. The evidence amply supports the basic conclusions of the Commission. In these circumstances, we see no basis for a new inquiry.

I hope that the foregoing information may be useful to you in replying to As requested, his letter is returned herewith.

575. ()	USIA 10	3 NSC	Hungarian People's Patriotic Front, began a series of eight article entitled "The Open Questions of the Kennedy Assassination," which questioned the findings in the Warren Commission Report. The seried drew heavily on Fred COOK's two articles in the June 13 and June 20 issues of <u>The Nation</u> which appeared, from the Hungarian articles, to be based largely on the analysis of a film taken by a spectator named Abraham ZAPRUDER. The bulk of the argument advanced by the series is not that Lee Harvey OSWALD is not guilty but that his guilt is shared by a second assassin who fired a second shot follow ing the one that initially hit the President. All eight articles will not be summarized here inasmuch as they are almost direct translations of the Cook pieces. There follow, however, excerpts from the introduction to the <u>Magyar Nemzet</u> series and the conclusio "More than two years and a half have elapsed since the shots that killed President Kennedy were fired. and the militarization of the power machinery of the U.S. In his analysis he demonstrated that, contrary to the official view, President Kennedy was not assassinated by one man. Fred Cook does not dare make farther reaching statements than this - he may at best hint at the possibility of a conspiracy in the background. It is by all means worth while paying attention to his hypothesis because leading American intellectuals have just stated in their White Book that the inhuman acts of American foreign policy can only be explained by the coming into power of an uninhibited cabal. Can there be a connection between the Kennedy assassination and the beginning or the more and more aggressive aggressivity of the Johnson era? Let the reader judge it on the basis of Fred Cook's study..."

The final article, following the eighth drawn from Cook's analysis, is entitled "The Lessons Taught By a Series of Articles," includes the following passage:

"We printed Fred Cook's study on the 'Crime of the Century' in eight instalments. Judging by the lively interest our readers have shown for these articles, we are gratified to know that we did right when we published the series. Astounding facts are revealed in Fred Cook's analysis ... At the time we read most attentively the articles on the private investigations of LANE the lawyer who tried to prove Oswald's innocence and we acquainted our readers with the ideas of BUCHANAN and JOESTEN, but they all supplanted their own hypotheses for the official one. Fred Cook set out on another road. He does not want to concoct sensational theories and hypotheses. All he did was to subject the report of the Warren Commission to a microscopic analysis, and to point to its glaring contradictions.

"A Ph.D. thesis appeared the other day in the United States on the Kennedy assassination. (This is probably a reference to "Inquest: The Warren Commission and the Establishment of Truth" by Edward Jay Epstein -ea,) The author says that neither the influential members of the Warren Commission nor the President himself wasted energy and time on examining the circumstances of the assassination... The government did not expect the Commission to follow up the data that could not be concerted

with the official explanation... When Chief Justice Warren left President Johnson at the time, there were tears in his eyes. Were those the tears of gratitude, emotion or of shame that he had to undertake such an ignominious role?"

Needless to say, the Kennedy assassination has never been a forgotten issue in Hungary and speculation on the "true facts" continue privately and publicly. This series, however, represents the most acute attack on the Warren Report in Hungary yet, easy as that was made for <u>Magyar</u> Nemzet by The Nation. Even as the series was appearing, Valosag, the monthly organ of the Society for the Dissemination of Scientific Knowledge, reviewed at length a book published by the Stanford University Press entitled "The Kennedy Assassination and the American Public. Social Communication in Crisis," edited by B.S. GREENBERG and E.B. PARKER, which appears to be a statistical analysis of the event, investigating such matters as what percentage of the American public knew within one hour what had happened; what percentage considered Oswald a left-winger, the sole assassin, or hired by someone else; what percentage burst into tears on hearing the news, or couldn't sleep that night. The reviewer concludes by saying that the book is a valuable contribution not only to completing a sociological picture of the tragic events but to contemporary history as well.

Homerable Thomas H. Machal United States Senate Vashington, D. C.

Dear Senator:

This refers to the letter you received from and forwarded to this Department and forwarded to this Department states she heard there is consideration being given to public suctioning of letters written by Jack Ruby during his imprisonment. She feels the letters may be significant in his case now under review and that they may have historical significance.

1

Under the Act approved Hovember 2, 1965 (Public Law 89-313, 89th Congress) the Attorney General has anthority to determine, within one year from the effective date of the Act, what items of evidence considered by the President's Commission on the assassination of President Kennedy shall be acquired and preserved by the United States, and title to such items shall west in the United States upon publication of that determination in the Federal Register. Publication listing all items to be acquired and preserved in conformance with the foregoing Congressional enactment will appear in the Federal Register not later than October, 1966, but presumably the letters mentioned by the united are not covered by the enactment.

The trial of Jack Ruby took place in the courts of the State of Texas. One of the basic questions is that of Ruby's insanity. Possibly the letters might have some value to the State for the purpose of determining criminal liability. This, the State officials will have to decide. There is no authority for the Federal Government to confiscate the letters or to intervene in their disposition.

Records Chrono Mr. Abell Mr. Vinson DAG As requested, the original latter received from this matter.

2 -

Sincerely,

TRED M. VINSON, Jr. Assistant Attorney General

and the street United States Senate July 23, 1966 Respectfully referred to · · · · · Department of Justice Washington 25, D.C. 101 2 8 107 T Wither work in section for such consideration as the communication herewith submitted may warrant, and for a report thereon, in duplicate to accompany return of inclosure. :11 JUL 03 1368 E.B. By direction of KUCHEI K:Wu s. s. protests alleged public auction of Re:' Ruby letters. 7C Rock /

: .

July 9, 1966 Dear Senator, I have just learned via a televised news proadenst that certain letters penned by Jack Ruby during this simprisionment are being considered for public auction. not being fully aware of the entire contents of these letters, I am none-the-loss certain that these items and any other items involved with the Ruby case should be considered with care in the event that they could be of sime significance in determining his case. I feel that all pertirent data, previously known and as yet to he accertained, should be kept under the restriction and care of an afficial agency where control and assimilation

of the facts can be undertaken in the pursuance of a clian and definite conclusion I further believe that all data ecreening Jack Ruly's case and the incidents leading up to his actions should be enlisted to the permanent trust of a federal agency when case is ultimately resolved. this is a unique case with You this is historical significance unquestisiable and I feel strangly that all data surrounding its occurrance should remain inter in a secure and lasting place under federal jurisduction Respectfully, Collige Studen.
