Deposes and says. I am presently living at 2503 Kilburn where I have a room with a Mrs. Rogers. The telephone number there is FR 401170. My folks live at 5125 Corrigan, Dallas, Texas and the telephone there is FR 403331. I am employed for Joe Summers Loop 12 Conoco Service Station at Loop 12 and Lancaster Road. The telephone number there is FR 6-6766. On Saturday, Movember the 16th, 1963 a man whose name I do not know moved into the cottsge beaind 2503 Kilburn that he rented from Mrs. Rogers. He rented this cottage for 1 week. Another man has been to this cottage named D. H. McFadin. McFadin is about 26 or 27 years of age, dark hair, heavy build, 100 to 170 pounds. The other man I have not seen but one time and I can not be sure of a good description on him. These two men either come in late at night or early in the mornings. One other oud thing is that they always park their cars by backing them into the driveway. One of the cars is a two tone Pontiac about a 58 model and the other one is a foreign mande car and is black. They both bear Texas license plates. Lest Priday night I had been over to my girl friend's house and had left there about lipm and went directly home. This took me about 20 minutes, as I went directly home. I then went to bed and sometime, I think it must have been early Saturday morning, I heard voices outside my window on the walk. One person was saying "Well it's over". The other man said "Keep Quiet, that guy is probably still awake". I heard nothing else, and went on back to sleep. This morning hirs. Rogers told me that she had not ween them anymore and I went out to the cottage and looked around. I found 3, 30-30 calibre shells a photograph taken at Guthries at Corinth and Industrial and another picture and a letter and an envelope. I picked up these things after thinking about what had happened and the conversation I had overheard and brought them to the Dallas County Sheriff's Office. To me these two men have acted pecular all week and after hearing them early Saturday morning, they have disappeared. The man shown in the picture from Guthrie's is the HcFedin man.

Today, I was standing on Houston Street, just below kthe window to Sheriff Bill Decker's office waiting for the parade. I was standing there when the President's car passed and just after they rounded the corner from Houston onto Elm Street, I heard a report and I knew at once that it was a high-powered rifle shot. I am a gih big game hunter and am familiar with the sound of hi powered rifles and I knew when I heard the retort that the shot had hit something. Within a fixed few seconds I heard another retort and knew it also had hit something and all I could see was the highly colored hat that Mrs. Kennedy had on. I couldn't see anything else. I was so sick that I went back to my office but after thinking it over, I came back as a citizen to offer my statement if it could help in any way. During the time I was standing there I did look up into the building where the Texas Book Depository is and saw some people, maybe 12 or 14, hanging out of windows, but I didn't see anyone with a gun.

When the sound of this shot came, it sounded to me like this shot came from away back or from within a building. I have heard this same sort of sound when a shot has come from within a cave, as I have been on many big game hunts.

I have been employed as janitor for the Texas School Book Depository for a little over 4 years. I do thepacking of the books as well as lock up at night. I came to work yesterday about 10:00 AM and I work until 7:00PM. There has been a man that I know only as "Lee" who has been working there about 5 weeks. He fills the orders and I pack the orders. Yesterday, at 12:00 Roon, this fellow Lee says to me, "I'm going up to eat" and I went on to my lunch. I went to a front window on the first floor and ate my lunch and waited to see the President's parade go by. I saw the president pass and heard some shots and looked at the clock there and saw it was 12:25PM. The shots seemed to me like they came from up inside the building. It was about 1:00 PM when the police made us vacate the building and as we were being checked out, I noticed that "Lee" wasn't with us and I mentioned to some of the employees there checking out that Lee wasn't there and somebody said, he must have already gone out. This man Lee has never talked much to anyone and hardly ever said anything to me. He kept pretty much to himself and hardly even answer when I would say "Goodmorning".

Yesterday, November 22, 1963, I was standing on the terrace of the small park on Elm Street to watch the President's motorcade. The President's car had just come up in front of me when I heard a shot and saw the President slump down in the car and he ard Mrs. Kennedy say, "Oh, no"., then a second shot and then I hit the ground as I realized these were shots. Then all of the recole started running up the terrace away from the President's car and I got up and started running also, not realizing what had happened. In just a few moments the President's car sped off abd everybody was just running around towards the railroad tracks and I knew that they had somebody trapped up there. I imagine I stayed there 15 or 20 minutes and then went over on Bouston Street to where I had my truck parked. I had just pulled away from the curb and was headed toward the Houston street waduct when an automobile that had 3 men in it pulled away from the curb in a burst of speed, passing me on the night side, which was very dangerous at that point, then got in front of me, and it seemed then as an afterthought, slowed in a big hurry in front of me as though realizing they would be conspicious in speeding. These three men were of slender build and seemed to be very excited in talking and motioning to each other. They went across the Houston Street Viaduct and I turned off at Marsalis Street exit and they continued on going towards Zangs Blvd. They were in a 1961 or 1962 Chevrolet sedan, maroon in color. I deminet don't believe I could identify these men, but I do believe I could identify the automobile if I saw it again.

Last Tuesday evening at approximately 12:15 AM (Wednesday morning), a lady friend and myselfjxx we had made an acquaintance, of a man who invited us to his Motel for some after hours drinking (after 12 at night). I don't have his name but I have the license number of the car he was driving. I left my car at the parking loti near the Baker Hotel, in Dallas, and we proceeded to his motel, a large kitchenette motel, as you go across the Houston street ximizex viaduct it is the first motel on the right, it's a big white motel, not too modern, I don't know the name of it. After the three of us got to his motel, where he was previously registered, we had a few drinks in his room. He proceeded to enterxi tain us with a mandolin and seemed to be pretty good with it. We had been there about 30 minutes, as well as I remember. About this time this fellow began to make indecent remarks to the woman, to the effect that he wanted her to get in bed with him. We had all been drinking, I was fairly well polluted, more so than the others but still had my mental and reasoning powers. At this point I objected to his language and overtures and we became involved in an argument of words. Something came up to the effect that he mix must be a queer or something. Then he tells me to get the hell out of there and if there's not going to be a party get the hell out of the place, I believe is the way he said it; and as I turned to walk toward the door and told the woman with me let's go, he pulled a rifle out of the closet, and put a round into the chamber, pointed it at me, and said: "Leave "... in so many words that's what it amounted to . As the woman and I got to the door he said, "I should make you strip and let me see your beautiful body." With that we walked out the door. He left the rifle inside the room and came outside and told us to get into the car and he would take us back to our car. When we got back to the parking lot where we had previously left mercian my car, after some more conversation to the effect that I didn't appreciate what he had done and this and that, then he pulls a pistol --I don't know where it came from, whether from his pocket or from the seat of the car on the left. He had the pistol in his lefthand. We were still in his car just as we were about to get out. And he said to sit still. And the woman put her hand on the barrel of the gun and told him to point it the other way, she was scared. I said to her, "Let's go." And opened the c ar door. We got out of the car and walked over to our car, which was about six feet away from his at the time. As he drove off in his car, the woman and I both got the likerex license number on his car, and we each repeated it aloud to each other, I continued to repeat the number until we got in my car and the woman wrote the number down on the back of a check book that was laying on the dash of my car. Deposes and mys- I was standing on Houston Street near the intersection of Blm Street. I took a picture of President Kennedy's car as it passed along Houston Street. I have an old camera. I looked down real quick and rolled the film to take the next picture. I then ran down to the corner of Elm andHouston Streets, this being the southwest corner. I took another picture just as President Kennedy's car rounded the corner. He was just about all the way around the corner. I was standing back from the corner and had to take the pictures through some of the crowd. I ran on down Blm a little more and President Kennedy's car was starting to go down the hill to the trible underpass. I was running trying to keep the President's car in my view and was winding my film as I ran. I was looking down at my camera to see the number of the film as I ran. I took another picture as the President's car was going down the hill on Elm Street. I started to wind my film again and I heard a loud noise. I thought that this noise was either a firecracker on a car had backfired. I looked up and it seemed like there was another loud noise in the matter of a few seconds. I looked down the street and I could see the President's car and another one and they looked like the cars were stopped. Then I saw a a flash of pink like someone standing up and then sitting back down in the car. Then I ran around so I could look over the back of a monument and I either saw the following then or when I was standing back down on the corner of Blm Street. I cannot remember exactly where I was when I say the following: I heard at least two shots fired and I say what looked like a firecracker going off in the president's car. My assumption for this was because I saw fragments going up in the air. I also saw a man in either the President's car or the car behind his and someone down in one of those cars pulled out what looked like a rifle. I also remember seeing what looked like a mickel revolver in someone's hand in the President's car or somewhere immediately around his car. Then the President's car sped on under the underpass. Police and a lot of spectators started running up the hill on the opposite side of the street from me to a fence of wood. I assumed that that was where the shot was fired from at that time. I kept watching the crowd. Then I came around the monument over to Main Street. I walked down toward where the President's car had stopped. I saw a Police Officer and some men in plain clothes. I don't know who they were. These Police Officers and the men in plain clothes were digging around in the dirt as if they were looking for a bullet. I walked back around the monument over to Blm Street where they were digging in the dirt. I went on across the street and up the embankment to where the fence is located. By this time almost all of the people had left. There were quite a few people down on the street crowded around a motorcycle. I was looking around the fence as the rumor had spread that that was where the shot had Subscribed and sworm to before me on this the 22-2-

I saw a group of men who looked like they might be officers and one of them turned out to be Deputy Sheriff Boone. I told him about the picture I had taken. Deputy Sheriff Boone contacted superiors and was told to bring me over to the Sheriff's Office. Deputy Sheriff Boone took my camera and asked me to wait. I waited in the Sheriff's Office and some time later, an hour or two, he brought my camera back and told me that as soon as they got through with the film and they were dry that they would give me the film. A little later he came in and gave me the negatives and told me that they were intersted in a couple of pictures and implied that the negatives was all I was going to get back. To the best of my knowledge, this is all I know about this incident.

On November 22, 1963, I was driving a rented White Valiant automobile west on Elm Street and was proceeding to the overpass in a westerly direction and at a point about 45 or 50 feet east of the overhead signs of the right entrance road to the overpass, there was a truck parked on the right hand side of the road. The truck looked like it had 1 or 2 wheels up on the curb. The hood of the truck was open. On the drivers side of the truck, there were printed letters in black, oval shaped, which said, "Air Conditioning". This was a pickup truck and along the back side of the truck were what appeared to be tool boxes. The truck was a green Ford with a Texas license. I remember seeing the word "Ford" at the back of the truck.

A man was sitting under the wheel of the car and slouched over the wheel. This man had on a green jacket, was a white male and about his 40's and was heavy set. I did not see him too clearly. Another man was at the back of the truck and reached over the tailgate and took out from the truck what appeared to be a gun case. This case was about 8" wide at it's widest spot and tapered down to a width of about 4" or 5". It was brown in color. It had a handle and was about 3½ to 4 feet long. The man who took this out of the truck then proceeded to walk away from the truck and as he did, the small end of the case caught in the grass or sidewalk and he reached down to free it. He then proceeded to walk across the grass and up the grassy hill which forms part of the overpass. This is the last I saw of this man.

I had been delayed because the truck which I described above was blocking my passage and I had to swait until the lane to myleft cleared so I could go by the truck.

During the time that I was at this point and observed the above incident there were 3 policeman standing talking near a motorcycle on the bridge just west of me.

Just before Noon today, my friend John Stevens Rutter Lawrence, who works with me, and I and two other friends left the Texaco Building where we work going to the parade. We were walking down Commerce up to Main and Main to Akard andwhile we were walking up Akard towards Main Street we passed a man who was carrying a rifle in a gun casc. I saw this man walking towards me, walking towards Commerce, and took particular attention to him because ofhis size. I am 6'5" and weigh 200 pounds. This man was very tall, approx 6'6" or 6'7" over 250 pounds, very thick and big through the chest, in his 30's, dirty blonde hair worn in a crew cut. Was wearing a grey colored business suit with white dress shirt, fair complexion. I remarked to my friend that there was a guy carrying a gum in all this crowd and made the remark that he was probably a secret service man. I could very easily identify this man if I ever saw him again. The gum case was holding a rifle because I could tell there was a gum in it as it was a combination leather and cloth gun case and without a gum, it would have been limp, but it was heavy and he was carrying it by the handle and the barrell of the gun was up at a 45 degree angle. It was beigh or tan leather and olive drab material.

We can place the time that we saw this man walking with the gum as I recall someone in the crowd asking for the time and they said it was 11:50A.M.

My husband, Arnold Rowland and I came to downtown Dallas today at approximately 12:10PM to see the President in the motorcade. We are both students at Adamson High School, but my husband has been ill and neither of us went to school today in order to see the President. We had taken a position at the side entrance of the Sheriff's Office on Houston Street and were standing there talking. We talked about security measures for the President and had talked about the recent affair with Mr. Stevenson. Amold told me to look up at the building which was the Texas Book Depository at two adjoining open windows, that there was a man up there holding a rifle and he must be a secret service man. I looked up and Arnold told me he had moved back, but I didn't see anything because I am very nearsighted and I didn't have my glasses on. We didn't think anything more of this and in about 15 minutes the President passed where we were standing and turned lest onto Elm Street and started down towards the unerpass when I heard a report and thought it was a mckfire then in a few seconds another report sounded and in another few seconds the third report. We started running towards Elm Street and that is all I know.

I am a student at Edamson High School in Dallas, Texas. I am employed on weekends at the Pizza Inn located on West Davis Avenue in Dallas. At approxmately 12:10PM today, my wife Barbara and I arrived in downtown Dallas and took position to see the President's motorcade. We took position at the west entrance of the Sheriff's Office on Houston Street. . We stood there for a time talking about various things and were talking about the security measures that were being made for the president's visit in view of the recent trouble when Mr. Adalai Stevenson had been a recent visitor to Dalles. It must have been 5 or 10 minutes Bater when we were just looking at the surroudding buildings when I looked up at the Texas Book Suppositiony building and noticed that the second floor from the top had two adjoining windows which were wide open, and upon looking I saw what I thought was a man standing back about 15 feet from the windows and was bolding in his arms what appeared to be a hi powered rifle because it looked as though it had a scope on it. He appeared to be holding this at a parade rest sort of position. I mentioned this to my wife and merely made the remark that it must be the secret service men. This man appeared to be a white man and appeared to have a light colored shirt on, open at the neck. He appeared to be of slender build and appeared to have dark hair. In about 15 minutes President Kennedy passed the spart spot where we were standing and the motorcade had just turned west on Elm heading down the hill when I heard a noise which I thought to be a back fire. In fact some of the people around laughed and then in about 8 seconds I heard another report and in about 3 seconds a third report. My wife, who had ahold, of my hand, started running and dragging me across the street and I never did look up again at this window.

This statement is true and correct to the best of my knowledge and belief.

Today, November 22nd, 1963, I was with Ronald Fischer, and we were on the corner at Kim and Houston, and I happened to look up there at the building, the Texas School Book Depository Building, and I saw a man at the window on the fifth floor, the window was wide open all the way; there was a stack of boxes around him, I could see. Bob remarked that he must be hiding from somebody. I noticed that he had on a sport shirt, it was light colored, it was yellow or white, something to that effect, and his hair was rather short; I thought he might be something around twenty-six, as near as I could tell.

The motorcade rounded the corner about this time, and then I thought I heard four shots, but it never occurred to us what it was. The shots seemed to come from that building there.

I was with my husband and three year old child, we were standing at the corner where the sign says "Stemmons Freeway" to the right.

As the President was coming through, I heard this first shot, and the President fell to his left. The President's wife immediately stood over him, and she pulled him up, and lay him down in the seat, and she stood up over him in the car. The President was standing and waving and smiling at the people when the shot happened.

And then there was a second shot that I heard, after the President's wife had pulled him down in the seat. It came from what I thought was behind us and I looked but I couldn't see anything.

The two men in the front of the car stood up, and then when the second shot was fired, they all fell down and the car took off just like that. After the motorcade went by, after that, I jumped up and headed for my car, we were parked up on the freeway. A police patrolman came up where we were, and we told him what we saw.

Today, November 22nd, 1963, I was with Robert E. (Bob) Edwards, we were standing on the corner of Klm and Houston, on the southwest corner; about thirty seconds before the motorcade came by, Bob turned to me and said that there was a man on the fifth floor of the Texas School Book Depository Building, at the window there, and I looked up and saw the man. I looked up at the window and I noticed that he seemed to be laying down there or in a funny position anyway, because all I could see was his head. I noticed that he was light-headed and that he had on an open-neck shirt, and that was before the motorcade rounded the corner. I noticed his complexion seemed to be clear, and that he was in his twenty's, appeared to be in his twenty's.

I turned away and by that time the motorcade rounded the corner. And then I heard what I thought was three shots, and the motorcade was about where that Stemmons Freeway sign is there.

I do remember one peculair thing happened just at the time I saw the men up there. There was a girl walked in the Texas School Book Depository Building, a rather tall girl, and looked to me like she might be an employee in that building. She was walking in while everyone else had been coming out.

By this time he was directly in front of us and I was looking directly at him when he was hit in the side of the head. Then he fell back and Governor Connally was holding his middle section. Then we fell down on the grass as it beined that we were in direct path of fire. It looked like Mrs. Kennedy jumped on top of the President. He kinds fell back and it looked like she was holding him. Then the car sped away and everybody in that area had run upon top of that little mound. I thought the shot had come from the garden directly behind me, that was on an elevation from where I was as I was right on the curb. I do not recall looking toward the Texas School Book Depository. I looked back in the vacinity of the garden.

Deposes and says-	,

This day at about 1235 PM I was on the roof of the Termaniel Annex Bldg on the ME Corner when the presidential Motorcade came down Main to Houston, North on Houston and then West on Klm. The cars had proceeded West on Klm and was just a short distance from the Tripple underpass, when I saw Gove Connelly slump over. I did not see the president as his car had gotten out of my view under the underpass. There was a volley of shots, I think five and then much later, maybe as much as five minutes later another one. I saw one man run towards the passenger cars on the railroad siding after the volley of shots. This man had a white dress shirt, no tie and kahki colored trousers. His hair appeared to be long and dark and his agility running could be about 25 yrs of age. He had something in his hand. I couldnit be sure but it may have been

presently employed by the Wallace and Beard Construction Company as a Steam fitter and have been so employed for about the past 7 weeks. I am working on the in the Katy Railroad yards at the West end of Pacific Street near the railroad tracks. We had k nocked off for lunch and I had dinner at the cafeteria at Record and Hain Street and had come back to see the President of the United States. I was sitting on a ladge or wall near the intersection of Houston Street and Elm Street near the red light pole. I was facing in a northerly direction looking not only at Elm street but I could see the large red brick building across the street show where I was sitting. I take this building across the street to be about 7 stories anyway in the east end of the building and the second row of windows from the top I saw a man in this window. I had seen him before the President's car arrived. He was just sitting up there looking down apparantly waiting for the same thing I was to see the President. I did not notice anything unusual about this man e ne was a white man in his early 30's, slender, nice looking, slender and would weigh about 165 to 175 pounds. He had on light colored clothing but definately not a suit. I proceeded to watch the President's car as it turned left at the corner where I was and about 50 yards from the intersection of Elm and Houston and to a point I would say the Fresident's back was in line with the last window I have previously described I heard what I thought was a back fire. It run in my mind that it might be someone throwing firecruckers out the window of the red brick building and I looked up at the building. I then saw this man I have described in the window and he was taking aim with a high powered rifle. I could see all of the barrel of the gun. I do not know if it had a scope on it or not. I was looking at the man in this window at the time of the last explosion. Then this man let the gun down to his side and stepped down out of sight. He did not seem to be in any hurry. I could see this man from about his belt up. There was nothing unusual about him at all in appearance. I believe that I could identify this man if I ever saw him again.
