when thing got to bad we more

We move with an uncle who has 13 kids with his 13 - and 4 things wasn't much better this uncle than us in the creek to

teach us to swim this was cruel but it was the sure way to learn. he also taught us about snakes some you could play with other to kill them or run like hell as if we did some thing to tell we had done it and why. I was also taught badyles didn't smake and they

kept this dress down we were taught to never start trouble but not to run from it. to steal only in a half to case also to think over any thing and be sure there was time we had only bread and water money so you see I know how is it to not have at X mas no toys. But there was good times too as any ones has. and funny thing

when us kids make lil soap and put bones and grease in too we didn't know not to put bones in so you wash dishes there was a big old bone in the dish water we didn't not had wash pan or hand soap never enough money to

but it no order Convince & all the
only way to keep our milk cool was to put
it in a jar let it down in the well

once my older brother went to a Circus
